Appendix to Broadcasting Decision CRTC 2006-411

Conditions of licence

1. The licensee may distribute, at its option, as part of the basic service, the signals CKSH-TV (SRC), CHLT-TV (TVA) Sherbrooke, CKTM-TV (SRC) Trois-Rivières, CKMI-TV (CBC) Québec and CFCF-TV (CTV) Montréal, Quebec, as well as the signals WVNY (ABC), WCAX-TV (CBS) Burlington, Vermont, WCFE-TV (PBS) and WPTZ (NBC) Plattsburgh, New York.
2. The licensee is relieved from the requirement of section 7 of the *Broadcasting Distribution Regulations* solely as it pertains to the passing through of video description on an analog basis, as long as this cable broadcasting distribution undertaking (BDU) is not fully interconnected with a Class 1 BDU.
3. The licensee may, at its option, insert certain promotional material as a substitute for the “local availabilities” (i.e. non-Canadian advertising material) of non-Canadian satellite services. At least 75% of these local availabilities must be made available for use by licensed Canadian programming services for the promotion of their respective services, for the promotion of the community channel and for unpaid Canadian public service announcements. A maximum of 25% of the commercial availabilities may be made available for the promotion of discretionary programming services and packages, customer service information, channel realignments, cable FM service and additional cable outlets.
