

Broadcasting Public Notice CRTC 2006-55

Ottawa, 28 April 2006

A new approach to revisions to the Commission's lists of eligible satellite services

The Commission maintains up-to-date versions of the lists of eligible satellite services (the lists) on its web site at www.crtc.gc.ca under "Industries at a Glance." It has been the Commission's practice to issue public notices setting out revisions to the lists each time that it amends one or more of the lists. Instead, as of today's date, public notices setting out the Commission's determinations on requests to amend the lists will provide a link to an up-to-date version of the lists on the Commission's web site. The lists will also be made available in hard copy on request.

The Commission will periodically issue public notices setting out revised lists that include references to all amendments that have been made since the previous public notice setting out the lists was issued.

Secretary General
