

Broadcasting Decision CRTC 2007-30

Ottawa, 25 January 2007

San Lorenzo Latin American Community Centre
Toronto, Ontario

Application 2006-1456-2

Broadcasting Public Notice CRTC 2006-154

30 November 2006

CHAA Toronto – Technical change

1. The Commission **approves** the application by San Lorenzo Latin American Community Centre (San Lorenzo) to change the authorized contours of the Type B community radio programming undertaking CHAA Toronto, by relocating the transmitter.
2. The authorized contours of the station will be decreased significantly and displaced to the south of the present contours, as a result of the relocation of the transmitter.
3. The licensee indicated that the Department of Industry (the Department) had requested that San Lorenzo cease broadcasting from the current transmitter site by 30 November 2006, due to interference problems from San Lorenzo's transmissions.
4. The Commission received interventions, including numerous form letters, in support of this application.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General
