Application No. 2007-0808-4

1. **Across Canada**
Application No. 2007-0888-6

Application by **The Sports Network Inc.** to amend the licence of the national specialty programming undertaking known as The Sports Network (TSN).

The licensee proposes to replace the following condition of licence:

The Sports Network Inc. is authorized to make available for distribution, until 8 October 2007, a version of TSN in high definition format, provided that not less than 95% of the video and audio components of the upgraded and analog versions of the service are the same, exclusive of the commercial messages and of any part of the service carried on a subsidiary signal.

with the following condition:

The licensee is authorized to make available for distribution, until 8 October 2010, a version of its service in high definition format, provided that not less than 95% of the video and audio components of the upgraded and analog versions of the service are the same, exclusive of commercial messages and of any part of the service carried on a subsidiary signal. All of the programming making up the 5% allowance shall be provided in high definition.

The licensee advises that its condition of licence regarding the distribution in high definition (HD) format is due to expire on 8 October 2007. It is now seeking an amendment to its licence for the standard three year term, in accordance with Broadcasting Public Notice CRTC 2006-74, 15 June 2006, *Regulatory framework for the licensing and distribution of high definition pay and specialty services*.

2. **Pomquet, Nova Scotia**
Application No. 2007-0887-8

Application by **La Coopérative Radio Chéticamp Limitée** to amend the licence of the French-language community Type A radio programming undertaking CKJM-FM Chéticamp, Nova Scotia.

The licensee proposes to add an FM transmitter at Pomquet to broadcast the programming of CKJM-FM Chéticamp in order to serve the population of Pomquet.

The transmitter would operate on frequency 92.5 MHz (channel 223A1) with an effective radiated power of 475 watts (non-directional antenna/effective antenna height of 30.7 metres).

The licensee indicates that it wishes to reach the Acadian francophones of the region.

3. **Abbotsford, British Columbia**
Application No. 2007-0808-4

Application by the **Canadian Broadcasting Corporation (CBC)** to amend the licence of the radio programming undertaking CBU Vancouver, British Columbia.

The licensee proposes to add an FM transmitter at Abbotsford to broadcast its programming service Radio One originating from CBU Vancouver in order to adequately serve the population of Abbotsford.

The transmitter would operate on frequency 101.7 MHz (channel 269A) with an average effective radiated power of 67 watts (maximum effective radiated power 316 watts/effective antenna height of 150.4 metres).

The CBC indicates that the signal of its station CBU Vancouver is deficient in Abbotsford and the proposed FM transmitter would provide a more reliable service in Abbotsford and the surrounding areas.

The CBC also indicates that this transmitter was previously approved by the Commission in Broadcasting Decision CRTC 2004-404, 7 September 2004 (Decision CRTC 2004-404).

In its decision, the Commission stated the following:

The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 7 September 2006.

The CBC did not get the transmitter operational by the 7 September 2006 and omitted to request an extension of time to implement it.

Consequently, the authority contained in Decision CRTC 2004-404 became null and void as of 7 September 2006.

The CBC confirms its intention to proceed with this undertaking and has therefore filed this application.

or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

Or

by fax at
819-994-0218

A true copy must be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line ***End of document*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.

Important notice

Note that all information that you provide as part of this public process, except information granted confidentiality, whether sent by postal mail, facsimile, e-mail or through the Commission's web site at www.crtc.gc.ca, becomes part of a publicly accessible file and will be posted on the Commission's web site. This information includes your personal information, such as your full name, e-mail address, postal/street address, telephone and facsimile number(s), and any other personal information you provide.

The personal information you provide will be used and may be disclosed for the purpose for which the information was obtained or compiled by the Commission, or for a use consistent with that purpose.

Documents received electronically or otherwise will be put on the Commission's web site in their entirety exactly as you send them, including any personal information contained therein, in the official language and format in which they are received. Documents not received electronically will be available in PDF format.

Please note that the information you provide to the Commission as part of this public process is entered into an unsearchable database dedicated to this specific public process. This database is accessible only from the webpage of this particular public process. As a result, a general search of our website with the help of either our own search engine or a third-party search engine will not provide access to the information which was provided as part of this public process.

Examination of Documents

An electronic version of applications is available from the Commission's web site by selecting the application number within this notice.

A list of all interventions/comments will also be available on the Commission's Web site. An electronic version of all interventions/comments submitted will be accessible from this list. To access the list, select "Lists of interventions/comments" under "Public Proceedings" from the Commission's Web site.

Documents are also available during normal office hours at the local address provided in this notice and at the Commission offices and documentation centres directly involved with these applications or, upon request, within 2 working days, at any other CRTC offices and documentation centres.
