

Broadcasting Public Notice CRTC 2008-88

Ottawa, 7 October 2008

Notice of consultation

Call for comments on the proposed addition of NDTV GOOD TIMES to the lists of eligible satellite services for distribution on a digital basis

1. The Commission received a request dated 30 June 2008 from Asian Television Network International Limited (ATN) for the addition of NDTV GOOD TIMES (NDTV), a non-Canadian satellite service originating in India, to the lists of eligible satellite services for distribution on a digital basis (the digital lists). ATN described NDTV as a Hindi- and English-language lifestyle and travel channel targeted to South Asian audiences. ATN specified that 75% of NDTV's programming is in the Hindi language with the remaining 25% in English.
2. In Broadcasting Public Notice 2004-96, the Commission defined a third-language programming service as one that provides at least 90% of its programming in languages other than English or French. Given ATN's statement that 25% of NDTV's programming is in English, the Commission will assess the request in accordance with its approach for the addition of non-Canadian English- and French-language services, to the digital lists, which is set out in Public Notice 2000-173. Under this approach, the Commission assesses such requests in the context of its general policy, which, among other things, precludes the addition of a non-Canadian satellite service that can be considered either totally or partially competitive with Canadian specialty or pay television services. In applying this policy, the Commission takes into account all specialty and pay television programming services whose licence applications had been approved by the Commission, including launched and unlaunched Category 1 and Category 2 specialty and pay television services.
3. The Commission will rely primarily on the comments filed to identify the Canadian pay and specialty services with which NDTV might be totally or partially competitive and which therefore should be included in the assessment of the competitiveness of the service. Parties wishing to argue that NDTV would be competitive should therefore name the specific Canadian pay or specialty services with which they consider NDTV would compete, and provide details to support their views, such as comparisons as to nature and genre of service, programming schedules, programming sources and supply, and target audience.

Call for comments

4. The Commission calls for comments on ATN's request for the addition of NDTV to the digital lists. Parties submitting comments on the request should also submit a true copy of their comments to the Canadian sponsor, ATN, at the following address:
