

Broadcasting Decision CRTC 2009-207

Route reference: 2009-90

Ottawa, 22 April 2009

Canal Évasion inc.
Across Canada

Application 2009-0312-1, received 6 February 2009

Canal Évasion – Licence amendment

1. The Commission **approves** the application by Canal Évasion inc. to amend the broadcasting licence for the national, French-language specialty programming undertaking known as Canal Évasion to allow the service to be made available for distribution in high definition (HD) format. The Commission did not receive any interventions in connection with this application.
2. Consistent with the Commission's approach to HD specialty services set out in Broadcasting Public Notices 2003-61 and 2006-74, as well as with the changes to this approach announced in Broadcasting Public Notice 2008-100, the licensee shall be subject to the following **condition of licence** until the end of the current licence term:

The licensee is authorized to make available for distribution a version of its service in high definition (HD) format, provided that not less than 95% of the video and audio components of the upgraded and standard definition versions of the service are the same, exclusive of commercial messages and of any part of the service carried on a subsidiary signal. Further, all of the programming making up the 5% allowance shall be provided in HD.
