Renewal of radio programming undertaking broadcasting licences due to expire 31 December 2009

Deadline for interventions: 21 January 2010

[\[Broadcasting intervention/comments form\]](#)

The Commission announces that it has received broadcasting licence renewal applications for radio programming undertakings for which the licences are due to expire 31 December 2009.¹ These applications, which raise no concerns and are complete, are set out below.

The Commission intends to renew these broadcasting licences for a full seven-year term, subject to any interventions. The Commission notes that, in addition to the conditions set out in the current licences, the renewed broadcasting licences will be subject to the conditions set out in *Conditions of licence for commercial AM and FM radio stations*, Broadcasting Regulatory Policy CRTC 2009-62, 11 February 2009.

In *Commercial Radio Policy 2006*, Broadcasting Public Notice CRTC 2006-158, 15 December 2006 (Broadcasting Public Notice 2006-158), the Commission set out a new approach to the development and promotion of Canadian artists. In order to reflect a new emphasis on development initiatives that lead to the creation of audio content for broadcast using Canadian resources, the Commission replaced the expression “Canadian talent development” (CTD) with “Canadian content development” (CCD). Each radio station holding a commercial radio licence is required to make a basic annual CCD contribution based on its revenues in the previous broadcast year. The basic contribution requirement has been enacted as a regulation, as set out in the *Radio Regulations, 1986*, as amended from time to time.

In the list below, stations identified with an asterisk (*) have been monitored by Commission staff. The monitoring report has been placed on each licensee’s public examination file. A copy can be obtained by contacting one of the Commission’s documentation centres.

The Commission notes that other such licences expiring in 2009 will be dealt with at a later date.

¹ These licenses were administratively renewed until 31 December 2009 in *Administrative renewals*, Broadcasting Decision CRTC 2009-506, 20 August 2009, and until 31 May 2010 in *Administrative Renewals*, Broadcasting Decision CRTC 2009-785, 17 December 2009.

The intervention will not be considered by the Commission and will not be part of the public file.

Interventions will be considered by the Commission and will form part of the public record of the proceeding without further notification to intervening parties, provided the procedure set out below has been followed. Parties will be contacted only if their submissions raise procedural questions.

Written interventions should be submitted to the Secretary General of the Commission in **only one** of the following formats:

 819-994-0218

A true copy must be sent to the applicant, and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Parties must ensure that, before initiating service through electronic mode, they will be able to satisfy the Commission, upon request, that service of the notification was completed.

Submissions longer than five pages should include a summary.

Each paragraph of the submission should be numbered. In addition, where the intervention is filed by electronic means, the line ***End of document*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Interventions should clearly identify the application referred to and indicate whether parties support or oppose the application, or, if they propose changes to it, include the facts and grounds for their proposal.

Important notice

All information that parties provide as part of this public process, except information granted confidentiality, whether sent by postal mail, facsimile, e-mail or through the Commission's website at www.crtc.gc.ca, becomes part of a publicly accessible file and will be posted on the Commission's website. The information that parties provide to the Commission as part of this public process is entered into an unsearchable database dedicated to this specific public process. This database is accessible only from the web page of this particular public process. As a result, a general search of the Commission's website with the help of either its own search engine or a third-party search engine will not provide access to the information that was provided as part of this public process.

The Commission encourages interested parties to monitor the public examination file and the Commission's website for additional information that they may find useful when preparing their interventions.
