Amendment to item 1 and extension of deadline for submission of interventions/comments for item 1 only to 20 July 2010

Further to its Broadcasting Notice of Consultation 2010-350, the Commission announces that the following item is amended at the request of the applicant. **The change is in bold.**

Item 1

Port Hawkesbury, Nova Scotia
Application No. 2010-0780-8

Application by MacEachern Broadcasting Limited relating to the English-language commercial FM radio programming undertaking CIGO-FM Port Hawkesbury.

The licensee proposes to change the authorized contours of the station by increasing the effective radiated power from 19,000 to **38,100** watts (non-directional antenna with an effective height of antenna above average terrain at 171.1 metres). All other technical parameters remain unchanged.

Due to this amendment, the Commission considers that it is appropriate to extend the deadline for the submission of interventions/comments until **20 July 2010**.
