

Broadcasting Decision CRTC 2006-133

Ottawa, 5 April 2006

Standard Radio Inc.

Trail and Castlegar, British Columbia

Application 2005-1158-6

Broadcasting Public Notice CRTC 2006-12

3 February 2006

CJAT-FM Trail – New transmitter in Castlegar

1. The Commission **approves** the application by Standard Radio Inc. (Standard) to amend the broadcasting licence for the radio programming undertaking CJAT-FM Trail, in order to operate a transmitter in Castlegar.
2. The new transmitter will operate at 90.3 MHz (channel 212A1) with an effective radiated power of 230 watts.
3. The Commission received interventions in support of this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 5 April 2008. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
