

Broadcasting Decision CRTC 2006-146

Ottawa, 20 April 2006

Canadian Broadcasting Corporation

Grand Falls and Baie Verte, Newfoundland and Labrador

Application 2006-0089-2

Broadcasting Public Notice CRTC 2006-21

20 February 2006

CBT Grand Falls and its transmitter CBTB-FM Baie Verte – Technical change

1. The Commission **approves** the application by the Canadian Broadcasting Corporation (CBC), the licensee of the radio programming undertaking CBT Grand Falls, to change the authorized contours of its transmitter CBTB-FM Baie Verte, by increasing the effective radiated power from 5,850 watts to 24,200 watts, and by decreasing the antenna height.
2. The licensee indicated that in 2007, when it installs a new tower at the existing transmitter site south of Wild Cove, it will combine the CBTB-FM antenna with a future Radio Two transmitter.
3. The Commission did not receive any interventions in connection with this application.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General
