

## Broadcasting Decision CRTC 2006-162

Ottawa, 21 April 2006

**Canadian Broadcasting Corporation**  
Moncton, New Brunswick

*Application 2006-0241-8*

### **CBAFT Moncton – Technical change**

1. The Commission **approves** the application by the Canadian Broadcasting Corporation to change the authorized contours of the television programming undertaking CBAFT Moncton, by decreasing the average effective radiated power from 163,000 watts to 137,700 watts and by increasing the antenna height.
2. The Commission notes that this change reflects the actual technical parameters following a replacement of the transmission facilities and that there will be no significant change to the coverage area.
3. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General
