

Broadcasting Decision CRTC 2006-287

Ottawa, 11 July 2006

Native Communication Inc.
Thompson and Swan Lake, Manitoba

Application 2006-0251-7
Broadcasting Public Notice CRTC 2006-54
26 April 2006

CINC-FM Thompson – New transmitter at Swan Lake

1. The Commission **approves** the application by Native Communication Inc. to amend the broadcasting licence for the radio programming undertaking CINC-FM Thompson, in order to operate a transmitter at Swan Lake.
2. The new transmitter will operate at 90.5 MHz (channel 213A) with an effective radiated power of 3,700 watts.
3. The Commission received interventions in support of this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 11 July 2008. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
