

Broadcasting Decision CRTC 2006-31

Ottawa, 6 February 2006

Burns Lake & District Rebroadcasting Society

Burns Lake, Decker Lake and Tintagel, British Columbia

Application 2005-0929-2

Broadcasting Public Notice CRTC 2005-111

25 November 2005

Radiocommunication distribution undertaking – licence amendment

1. The Commission **approves** the application by Burns Lake & District Rebroadcasting Society to amend the broadcasting licence for the radiocommunication distribution undertaking serving Burns Lake, Decker Lake and Tintagel, British Columbia, in order to operate an FM transmitter to distribute, in non-encrypted mode, the signal of the Canadian Broadcasting Corporation's national English-language network service, Radio Two.
2. The new transmitter will operate at 107.5 MHz (channel 298A) with an average effective radiated power of 110 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
