Application 2004-1508-5

Public Hearing in the National Capital Region

1 May 2006

Spanish Sports TV 2 – Category 2 specialty service

*In this decision, the Commission **approves** an application for a broadcasting licence to operate a new Category 2 specialty programming undertaking.*

The application

1. The Commission received an application by Teletatino Network Inc., on behalf of itself or a corporation to be incorporated (TLN), for a broadcasting licence to operate a national, ethnic Category 2¹ specialty programming undertaking to be known as Spanish Sports TV 2.
2. The applicant proposed to offer a service that would be devoted to the Spanish-speaking community and that would consist of sports programming, including sporting events, magazine shows, interviews and sports documentaries with a particular emphasis on programming of interest to the 25 to 54 year old demographic. All of the programming would be drawn from the following categories, as set out in Schedule 1 to the *Specialty Services Regulations, 1990*: 1 News; 2(a) Analysis and interpretation; 2(b) Long-form documentary; 3 Reporting and actualities; 5(b) Informal education/Recreation and leisure; 6(a) Professional sports; 6(b) Amateur sports; 7(c) Specials, mini-series or made-for-TV feature films; 7(d) Theatrical feature films aired on TV; 7(e) Animated television programs and films; 10 Game shows; 11 General entertainment and human interest; 12 Intertitles; 13 Public service announcements; and 14 Infomercials, promotional and corporate videos.
3. The applicant proposed to broadcast not less than 85% of its programming in the Spanish language and not more than 15% in either the English or French language.
4. The applicant also requested that it be authorized, by condition of licence, to broadcast up to six minutes per hour of local or regional advertising.

¹ The Category 2 services are defined in *Introductory statement – Licensing of new digital pay and specialty services*, Public Notice CRTC 2000-171, 14 December 2000.

Interventions

5. The Commission received one intervention in support of this application. An intervention submitted jointly by TerraTerra Communications Inc. (TTC) and NMTV Inc., also known as Nuevo Mundo Television (Nuevo Mundo), licensee of a Spanish-language Category 2 service known as NMTV opposed the application, given the size of the market.

Applicant's reply

6. TLN indicated that Nuevo Mundo and TTC did not provide any specific reasons for their opposition to this application. TLN further stated that the interveners may be concerned about potential competition between TLN's proposed service and NMTV. TLN argued that the Commission has repeatedly reiterated its policy that Category 2 specialty programming undertakings do not enjoy genre protection, and may face competition from other Category 2 programming services.

Commission's analysis and determinations

7. In *Revised approach for the consideration of broadcasting licence applications proposing new third-language ethnic Category 2 pay and specialty services*, Broadcasting Public Notice CRTC 2005-104, 23 November 2005, the Commission designed a new open-entry approach for consideration of applications proposing new third-language ethnic Category 2 services. The Commission defined a third-language programming service as one that provides at least 90% of its programming in languages other than English or French.
8. In announcing its revised approach, the Commission indicated that applicants proposing new Category 2 services that would offer less than 90% of their programming in a third language would continue to be assessed under the case-by-case approach set out in *Licensing framework policy for new digital pay and specialty services*, Public Notice CRTC 2000-6, 13 January 2000. In that framework, the Commission implemented a competitive, open-entry approach to licensing Category 2 services. While the Commission does not consider the impact that a new Category 2 service might have on an existing Category 2 service, it does seek to ensure that newly licensed Category 2 services do not compete directly with any existing pay or specialty television service, including any Category 1 service.

9. The Commission notes that the proposed service would offer a Spanish-language service devoted specifically to sports programming and would therefore not be directly competitive with existing services. Therefore, the Commission is satisfied that the application is in conformity with all applicable terms and conditions announced in *Introductory statement – Licensing of new digital pay and specialty services – Corrected Appendix 2*, Public Notice CRTC 2000-171-1, 6 March 2001 (Public Notice 2000-171-1). Accordingly, the Commission **approves** the application by Telelatino Network Inc., on behalf of itself or a corporation to be incorporated, for a broadcasting licence to operate a national, ethnic Category 2 specialty programming undertaking, Spanish Sports TV 2.
10. With respect to the request to broadcast up to six minutes of local or regional advertising, the Commission notes that the service would be devoted to the Spanish-speaking community, and that not less than 85% of all programming broadcast during the broadcast week would be in the Spanish language. As a result, the Commission is of the view that the service would not compete directly with existing analog or Category 1 services and that the addition of local or regional advertising on the proposed service would have limited impact on them.
11. The Commission therefore **approves** the applicant's request for authority to broadcast up to six minutes per hour of local and regional advertising. A **condition of licence** to that effect is set out in the appendix to this decision.
12. The Commission notes that Spanish Sports TV 2 will devote at least 85% of its program schedule to programming in the Spanish language, with the remainder in English or French. The Commission encourages the applicant to ensure that all such programming serves to promote Canada's linguistic duality.
13. The licence will expire 31 August 2013, and will be subject to the **conditions** set out in Public Notice 2000-171-1, as well as to the **conditions** set out in the appendix to this decision.

Issuance of the licence

14. A licence will be issued once the applicant has satisfied the Commission, with supporting documentation, that the following requirements have been met:
 - an eligible Canadian corporation has been incorporated in accordance with the application in all material respects or, in the alternative, confirmation that the undertaking will be operated by Telelatino Network Inc.;
 - the applicant has entered into a distribution agreement with at least one licensed distributor; and

- the applicant has informed the Commission in writing that it is prepared to commence operations. The undertaking must be operational at the earliest possible date and in any event no later than 36 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 6 September 2009. In order to ensure that such a request is processed in a timely manner, it should be submitted at least 60 days before that date.
