PREAMBLE

For items 1 to 10

On 12 January 2006, the Commission issued Broadcasting Public Notice CRTC 2006-3, announcing that it had received applications for broadcasting licences to carry on television programming undertakings to provide television services to serve Edmonton and Calgary, Alberta. The Public Notice called for applications from other parties wishing to obtain broadcasting licences to provide television services to Edmonton and/or Calgary, Alberta.

On 12 April 2006, the Commission issued Broadcasting Public Notice CRTC 2006-3-1, extending the deadline for submission of applications until further notice.

On 7 July 2006, the Commission issued Broadcasting Public Notice CRTC 2006-3-2, stating that the deadline for submission of applications was extended to 18 August 2006.

In response to this call, the Commission has received a number of applications for licences to serve these markets.

Some of these applications are technically mutually exclusive. These applications are:

For Calgary:

- Rogers Broadcasting Limited (item 5), MVBC Holdings Limited (item 7), and CanWest MediaWorks Inc. (item 9) are technically mutually exclusive, proposing the use of channel 38.

These applications, along with Crossroads Television System (item 1) and The Miracle Channel Association (item 3), will be treated as competitive television applications for Calgary.

For Edmonton:

- Crossroads Television System (item 2) and MVBC Holdings Limited (item 8) are technically mutually exclusive, proposing the use of channel 45.

These applications, along with The Miracle Channel Association (item 4), Rogers Broadcasting Limited (item 6), and CanWest MediaWorks Inc. (item 10), will be treated as competitive television applications for Edmonton.

In order to use its time more efficiently at the hearing, the Commission may decide to question applicants on any matters related to issues common to both markets.

Item 11

The Commission intends to discuss various issues related to the use of local availabilities in US programming services for commercial advertising and any potential impacts that the undertaking proposed by Only Imagine Inc. would have on Canadian programming services and broadcasting distribution undertakings.

Application by **Rogers Broadcasting Limited** (Rogers) to renew the licence of the English-language commercial radio programming undertaking CKCL-FM, Chilliwack and its transmitters CKCL-FM-1 Abbotsford and CKCL-FM-2 Vancouver, expiring August 31, 2007.

As part of the current licence term, the Commission received complaints alleging the licensee's abandonment of CKCL-FM's Fraser Valley programming orientation.

As a result, the Commission on 19 May 2000, issued a letter of determination on May 19, 2000 to Rogers, in which, the Commission directed the licensee to:

- Not identify itself on a basis that includes exclusive references to Vancouver;
- The station was expected to include references to the areas that it is licensed to serve in all traffic and weather reports, as well as to include, on a regular basis, references to local news and events in the community it is licensed to serve.

Correspondence relating to these complaints and the results of subsequent Commission staff monitoring concluding that CKCL-FM may have failed to comply with its Fraser Valley programming offering are available for inspection on the public examination file.

Additional correspondence may be added to the public examination file of this licensee following today's date; interested parties are advised to review the file for any such additional correspondence.
