10.	<b>Trust Communications Ministries</b> Iqaluit, Nunavut

1. **Across Canada**  
**Application No. 2006-0118-9**

Application by **Toronto Maple Leafs Network Ltd.** to amend the licence of the regional Category 2 specialty programming undertaking known as LeafsTV.

The licensee proposes to make the above-noted service available for distribution in high definition format. The programming would be the same as the standard definition version of the service.

In *The regulatory framework for the distribution of digital television signals*, Broadcasting Public Notice CRTC [2003-61](#), dated 11 November 2003, the Commission stated the following in paragraph 67:

The Commission will permit the licensee of a Canadian pay or specialty service to make available for distribution an upgraded version of the service, provided that not less than 95% of the video and audio components of the upgraded and analog versions of the service are the same, exclusive of the commercial messages and of any part of the service carried on a subsidiary signal. The Commission will authorize such an upgraded version by means of an amendment to the licence of the corresponding analog service.

2. **La Pocatière, Quebec**  
**Application No. 2005-1135-4**

Application by **Vidéotron Ltd.** to amend the licence of its cable distribution undertaking serving La Pocatière.

The licensee requests an exemption, by condition of licence, of its requirement under section 17 of the *Broadcasting Distribution Regulations* (the Regulations) with respect to the priority carriage of TVA's signal.

The licensee proposes to replace the CIMT-TV (TVA Rivière-du-Loup) signal with the CFCM-TV's (TVA, Quebec) signal and distribute CFCM-TV with the same priority as would normally be accorded to CIMT-TV under section 17 of the Regulations.

Vidéotron stated that it intends to continue the distribution of CIMT-TV on the basic service but would not distribute this station on a priority basis.

4. **Brantford, Ontario**  
**Application No. 2006-0144-4**

Application by **Telephone City Broadcast Limited** relating to the licence of radio programming undertaking CKPC Brantford.

The licensee proposes to change its authorized contours by increasing the transmitter power, day and night, from 10,000 to 25,000 watts.

The licensee indicated that this change will increase the station's coverage and improve service both during the day and the night, in all directions.

The Commission notes that a similar power increase was approved in Decision CRTC 90-811, 28 August 1990, but never implemented.

The licensee indicated that the resulting coverage will be slightly different than that entailed by Decision CRTC 90-811.

*Licensee's address:*

5. **Foymount, Ontario**  
**Application No. 2005-1298-0**

Application by **United Christian Broadcasters Canada** to amend the licence of radio programming undertaking CKJJ-FM Belleville, Ontario.

The licensee proposes to add an FM transmitter at Foymount, Ontario to broadcast the programming of CKJJ-FM Belleville, in order to serve the population of central Renfrew county.

The transmitter would operate on frequency 106.5 MHz (channel 293 C1) with an average effective radiated power of 26,915 watts (maximum effective radiated power of 100,000 watts/antenna height of 285.8 metres).

The applicant indicates that the new service will meet the needs of the community underserved by stations offering adult christian contemporary programming.

6. **Leamington, Ontario**  
**Application No. 2006-0239-3**

Application by **Blackburn Radio Inc.** to amend the licence of radio programming undertaking CHYR-FM Leamington.

The licensee proposes to change the authorized contours by decreasing the average effective radiated power from 19,320 watts to 10,650 watts by increasing the antenna height and by relocating the transmitter (maximum effective radiated power 27,000 watts/antenna height 152.9 metres).

The licensee states that the proposed changes will result in a better quality signal to listeners located in Essex County, which forms part of its licensed area, who are currently experiencing poor reception of CHYR-FM.

*Licensee's address:*

700 Richmond Street-Unit 204  
 London, Ontario

[\[Broadcasting intervention/comments form\]](#)

7. **Niagara Falls, Ontario**  
**Application No. 2006-0338-3**

Application by **CJRN 710 Inc.** relating to the licence of radio programming undertaking CFLZ-FM Niagara Falls.

The licensee proposes to change the authorized contours by decreasing the average effective radiated power from 7,200 watts to 4,000 watts, by decreasing the antenna height and by relocating the transmitter (maximum effective radiated power 15,000 watts/antenna height 127.4 metres).

The licensee advised that the proposed changes would provide a much better coverage within its licensed area resulting in an improvement of service.

The authorized contours of the station will change significantly resulting from the proposed decrease in power, decrease in transmitter height and relocation of the transmitter site. The coverage south of the Canadian border will also be reduced.

8. **Swan Lake, Manitoba**  
**Application No. 2006-0251-7**

Application by **Native Communication Inc.** to amend the licence of radio programming undertaking CINC-FM Thompson, Manitoba.

The licensee proposes to add an FM transmitter at Swan Lake to broadcast the programming of CINC-FM, in order to serve the population of Swan Lake.

The transmitter would operate on frequency 90.5 MHz (channel 213A) with an effective radiated power of 3,700 watts (non-directional antenna/antenna height of 51.2 metres).

9. **Winnipeg, Manitoba**  
**Application No. 2006-0101-4**

Application by **Radio communautaire du Manitoba Inc.** to amend the licence of the community type A radio programming undertaking CKXL-FM Winnipeg.

The licensee seeks authority to reduce its weekly station-produced programming from 121 hours to 68 hours.

The licensee will however continue to broadcast 40 hours per week produced by the Réseau francophone d'Amérique.

Owing to its reliance on community volunteers' support, the licensee does not have the necessary human resources to maintain a level of 121 hours of station-produced programming each week.
