2. **Dégelis and Rivière-du-Loup, Quebec**
Application No. 2006-0179-1

Application by **Radio Dégelis inc.** to amend the licence of radio programming undertaking CFVD-FM Dégelis, Quebec.

The licensee proposes to add an FM transmitter at Rivière-du-Loup to broadcast the programming of CFVD-FM Dégelis, in order to serve the population of Route 185 including Rivière-du-Loup.

The transmitter would operate on frequency 102.5 MHz (channel 273A) with an effective radiated power of 5,750 watts (non-directional antenna/antenna height of 89.3 metres).

The licensee wishes to increase the quality of the signal of CFVD-FM, provide a greater diversity of editorial voices in Rivière-du-Loup and ensure a balance in the treatment of public affairs programming services.

6. **Various locations in Ontario, New Brunswick and Newfoundland and Labrador**

Application No. 2006-0196-5

Application by **Rogers Cable Communications Inc.** (Rogers) to amend the licences of its cable distribution undertakings serving the above-mentioned locations.

The licensee proposes to amend its licences to authorize these cable systems to distribute one or both of the audio programming services offered by Canada's two satellite subscription radio undertakings.

Rogers intends to offer one or both of the satellite subscription radio services as part of its digital offering on these cable systems.

Rogers submitted that the carriage of these services would significantly enhance the quality and diversity of the audio programming available on its cable systems on a digital basis and would enable it to satisfy the audio programming needs of its customers. Rogers also considered that the addition of one or both of these services to its digital offering would act as an important catalyst to encourage its customers to migrate from an analog to a digital distribution environment.

7. **Lethbridge, Alberta**
Application No. 2006-0381-2

Application by **The Miracle Channel Association** to amend the licence of television programming undertaking CJIL-TV Lethbridge.

The licensee proposes to amend its current condition of licence which prohibits it from broadcasting advertising material, with the following condition:

The licensee will not broadcast advertising material or commercial messages other than those promoting religious goods and services.

The licensee states that allowing the promotion and sales of goods and services related to

religious subjects broadcast on the station is necessary for its viewers who expect to be kept informed of the availability of the resources and how to acquire them.

The licensee asserts that the sales of resource material and services is important to maintain the continued operation of the station and notes that its proposed amendment would not have an adverse effect on other local broadcasters as it would not sell commercial spots to third parties.

9. **Squamish, British Columbia**
Application No. 2006-0337-5

Application by **Canadian Broadcasting Corporation (CBC)** to amend the licence of radio programming undertaking CBU Vancouver, British Columbia.

The licensee proposes to add a FM transmitter at Squamish to broadcast the programming of its Radio One service originating from CBU Vancouver, in order to continue to serve the population of Squamish and surrounding areas.

The transmitter would operate on frequency 98.3 MHz (channel 252A) with an average effective radiated power of 1,550 watts (maximum effective radiated power of 3,000 watts/antenna height of -389.53metres).

The CBC indicates that the lease for the site of its transmitter CBRU Squamish will be terminated on 24 July 2006 and it has been unsuccessful to find an alternate location for its AM transmitter. Therefore, it has concluded that a change from the AM to the FM band is the most attractive technical and economical solution.

The CBC indicates that its Radio One service at Squamish and surrounding areas, received from its transmitter CBRU, will go off the air as of 24 July 2006.

Public Participation

Deadline for Interventions/Comments

12 June 2006

The intervention must be received by the CRTC and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays.

Your intervention will be considered by the Commission, and will form part of the public record of the proceeding without further notification to you, provided the procedure set out below has been followed. You will be contacted only if your submission raises procedural questions.

Submit your written intervention to the Secretary General of the Commission in **only one** of the following formats:

by using the
Broadcasting Intervention/Comments Form
located below the description of each application within this public notice

or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

or

by fax at
(819) 994-0218

A true copy must be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line *****End of document***** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.

Important notice

Note that all information that you provide as part of this public process, except information granted confidentiality, whether sent by postal mail, facsimile, e-mail or through the Commission's web site at www.crtc.gc.ca, becomes part of a publicly accessible file and will be posted on the Commission's web site. This information

includes your personal information, such as your full name, e-mail address, postal/street address, telephone and facsimile number(s), and any other personal information you provide.

Documents received electronically or otherwise will be put on the Commission's web site in their entirety exactly as you send them, including any personal information contained therein, in the official language and format in which they are received. Documents not received electronically will be available in PDF format.

The personal information you provide will be used and may be disclosed for the purpose for which the information was obtained or compiled by the Commission, or for a use consistent with that purpose.

Examination of Documents

An electronic version of applications is available from the Commission's web site by selecting the application number within this notice.

A list of all interventions/comments will also be available on the Commission's Web site. An electronic version of all interventions/comments submitted will be accessible from this list. To access the list, select "Lists of interventions/comments" under "Public Proceedings" from the Commission's Web site.
