Ottawa, 16 July 2007

High Fidelity HDTV Inc., on behalf of a corporation to be incorporated Across Canada

*Application 2007-0093-1, received 19 January 2007
Public Hearing in the National Capital Region
28 May 2007*

GameWorld HD – Category 2 specialty service

*The Commission **approves** an application for a broadcasting licence to operate a new
Category 2 specialty programming undertaking.*

Introduction

1. High Fidelity HDTV Inc., on behalf of a corporation to be incorporated, filed an application for a broadcasting licence to operate GameWorld HD, a national, English-language Category 2 high definition specialty programming undertaking devoted to the world of games and gamers including, without limitation, video games, computer games, card games and board games. The proposed service would offer entertainment, advice and information to gamers of all ages.
2. The Commission has implemented a competitive, open-entry approach to licensing Category 2 services. While the Commission does not consider the impact that a Category 2 service might have on an existing Category 2 service, it does seek to ensure that Category 2 services do not compete directly with any existing Category 1 or analog pay or specialty television service. The Commission examines each application in detail, taking into consideration the proposed nature of service and the unique circumstances of the genre in question. Where appropriate, in setting conditions of licence, the Commission prevents or limits the broadcast of specific types of programming to ensure that the service is not nor will become directly competitive with any existing Category 1 or analog pay or specialty television service.
3. The Commission received an intervention by Astral Television Network (Astral), a division of Astral Broadcasting Group Inc., commenting on the application. Astral owns and operates The Movie Network and MPix, two English-language, analog pay television programming undertakings that provide general interest theatrical movie-based services in eastern Canada.

4. After considering the positions of the applicant and the intervener, the Commission finds that the issue to be determined in its evaluation of this application is whether the proposed service would be directly competitive with existing Category 1 or analog pay or specialty services.

Would GameWorld HD be directly competitive with existing Category 1 or analog pay or specialty services?

5. Astral submitted that, if approved, GameWorld HD should be subject, by condition of licence, to a 15% limitation on programs drawn from category 7(d) Theatrical feature films aired on TV. In Astral's view, without such a limitation, GameWorld HD could be directly competitive with existing Category 1 or analog pay or specialty television service.
6. In response, the applicant indicated its willingness to accept a condition of licence limiting the programs drawn from category 7(d) to 15% of the broadcast week.
7. Based on the foregoing, the Commission is satisfied that the proposed service would not be directly competitive with any existing Category 1 or analog pay or specialty service and that the application is consistent with Public Notice 2000-6. Furthermore, the Commission is satisfied that the application is in conformity with all applicable terms and conditions announced in Public Notice 2000-171-1. Accordingly, the Commission **approves** the application by High Fidelity HDTV Inc., on behalf of a corporation to be incorporated, for a broadcasting licence to operate the national, English-language Category 2 specialty programming undertaking, GameWorld HD. The terms and **conditions of licence**, including a condition limiting the programming drawn from category 7(d), are set out in the appendix to this decision.
