

Broadcasting Decision CRTC 2007-393

Ottawa, 29 October 2007

CF Cable TV Inc.
Saint-Siméon, Quebec

Application 2007-0402-4, received 9 March 2007
Public Hearing in the National Capital Region
27 August 2007

Cable broadcasting distribution undertaking

*The Commission **approves** the application by CF Cable TV Inc. for a broadcasting licence to continue the operation of the Class 3 cable broadcasting distribution undertaking serving Saint-Siméon, Quebec, subject to the terms and conditions set out in the licence and in the appendix to this decision.*

The application

1. The Commission received an application by CF Cable TV Inc. (CF Cable) for a broadcasting licence to continue the operation of the Class 3 cable broadcasting distribution undertaking (BDU) serving Saint-Siméon, Quebec.
2. In Broadcasting Decision 2002-45, the Commission revoked the broadcasting licence issued to the then licensee Télé-Câble Charlevoix (1977) inc. for the BDU serving Saint-Siméon, pursuant to Broadcasting Public Notice 2001-121.
3. Given that the BDU serving Saint-Siméon is no longer operating its head-end and is now interconnected with Videotron Ltd.'s BDU serving Québec, Quebec, the BDU serving Saint-Siméon no longer complies with the terms of the exemption order appended to Broadcasting Public Notice 2001-121, as amended in Broadcasting Public Notice 2002-74, and must therefore obtain a broadcasting licence to continue its operations.
4. CF Cable requested that it be relieved, by condition of licence, of the requirement under section 25 of the *Broadcasting Distribution Regulations* (the Regulations) not to distribute the signals of CFTU-TV (Canal Savoir) Montréal and of the "Assemblée nationale du Québec" on restricted channels, so long as the quality of these signals does not deteriorate.
5. The applicant further requested authority to distribute certain additional signals, as identified in the application.
6. The Commission did not receive any interventions in connection with this application.

Commission's analysis and determinations

7. The Commission notes that the exemption order appended to Broadcasting Public Notice 2002-74 no longer applies to the BDU serving Saint-Siméon because this BDU is now interconnected with Videotron Ltd.'s BDU serving Québec. Accordingly, the Commission **approves** the application by CF Cable TV Inc. for a broadcasting licence to continue the operation of the Class 3 cable BDU serving Saint-Siméon, Quebec. The licence will be subject to the **conditions** specified therein as well as to the **conditions** set out in the appendix to this decision.
8. The Commission also **approves** the applicant's other authorization requests. **Conditions of licence** relating to these authorizations are set out in the appendix to this decision.
9. This undertaking shall comply with the rules applicable to Class 3 licensees, including the rules for digital distribution. The operation of this undertaking will be regulated pursuant to the Regulations.

Employment equity

10. Because this licensee is subject to the *Employment Equity Act* and files reports concerning employment equity with the Department of Human Resources and Skills Development, its employment equity practices are not examined by the Commission.

Appendix to Broadcasting Decision CRTC 2007-393

Terms and conditions of licence

Terms

The Commission will issue a Class 3 broadcasting licence to continue the operation of the cable broadcasting distribution undertaking serving Saint-Siméon, Quebec.

The licence will expire 31 August 2014.

Conditions of licence

1. The licensee is authorized to distribute CFCF-TV (CTV) and CFTU-TV (Canal Savoir) Montréal, as part of the basic service.
2. The licensee is relieved of the requirement of section 25 of the *Broadcasting Distribution Regulations* to distribute the community channel as well as the signals of CFTU-TV (Canal Savoir) Montréal, and of the “Assemblée nationale du Québec” on unrestricted channels. Should the quality of the signals deteriorate significantly, the licensee shall immediately undertake the necessary corrective action, including the distribution of the services on other channels.
3. The licensee is authorized to distribute the signals of the transitional digital television undertakings CFTO-DT and CIII-DT-41 Toronto as part of its high definition (HD) digital service until Montréal digital television undertakings that provide CTV and Global programming in HD begin broadcasting. Specifically, the authorization to distribute CFTO-DT will lapse once a Montréal digital television undertaking that provides CTV programming in HD begins broadcasting, and the authorization to distribute CIII-DT-41 will lapse once a Montréal digital television undertaking that provides Global programming in HD begins broadcasting.
4. The licensee is authorized to distribute, on a digital discretionary basis, the distant Canadian signal CITY-TV Toronto.
5. The licensee is authorized to distribute, at its option, as part of the basic service, WCAX-TV (CBS) and WPTZ (NBC) Burlington, Vermont, as well as WVNY (ABC) and WCFE-TV (PBS) Plattsburgh, New York.
6. The licensee is authorized to distribute, at its option, on a discretionary basis WFFF-TV (FOX) Burlington, Vermont.
7. The licensee is authorized to distribute the following signals on a digital discretionary basis:

- a second set of signals that provides the programming of the four U.S. commercial networks (CBS, NBC, ABC, FOX) and the non-commercial network PBS (referred to as the U.S. 4+1 signals).

The distribution on a discretionary basis on the licensee's digital service of a second set of U.S. 4+1 signals is subject to the provision that, with respect to such signals, the licensee adhere to the requirements regarding non-simultaneous program deletion set out in section 43 of the *Broadcasting Distribution Regulations*. The Commission may suspend the application of this provision, with respect to the signals to be distributed, upon its approval of an executed agreement between the licensee and broadcasters. Such an agreement must deal with issues related to the protection of program rights arising in connection with the discretionary carriage of a second set of U.S. 4+1 signals solely on the licensee's digital service.

8. The licensee is authorized to distribute the following signals on a digital discretionary basis:

- a third set of signals that provides the programming of the four U.S. commercial networks (CBS, NBC, ABC, FOX) (hereafter referred to as the U.S. commercial network signals).

The distribution on a discretionary basis on the licensee's digital service of a third set of U.S. commercial network signals is subject to the provision that, with respect to such signals, the licensee adhere to the requirements regarding non-simultaneous program deletion set out in section 43 of the *Broadcasting Distribution Regulations*. The Commission may suspend the application of this provision, with respect to the signals to be distributed, upon its approval of an executed agreement between the licensee and broadcasters. Such an agreement must deal with issues related to the protection of program rights arising in connection with the discretionary carriage of a third set of U.S. commercial network signals solely on the licensee's digital service.

9. The licensee shall not distribute to any subscriber more than two sets of U.S. commercial network signals.

10. The licensee may, at its option, insert certain promotional material as a substitute for the "local availabilities" (i.e., non-Canadian advertising material) of non-Canadian satellite services. At least 75% of these local availabilities must be made available for use by licensed Canadian programming services for the promotion of their respective services, for the promotion of the community channel, and for unpaid Canadian public service announcements. A maximum of 25% of the local availabilities may be used to provide subscribers with information regarding customer service and channel realignments, and for the promotion of discretionary programming services and packages, cable FM service and additional cable outlets.
