PREAMBLE

Items 1 to 18

On 12 March 2007, the Commission issued Broadcasting Public Notice CRTC 2007-24, calling for applications for a broadcasting licence to carry on a radio programming undertaking to serve Owen Sound, Ontario.

On 8 June 2007, the Commission issued Broadcasting Public Notice CRTC 2007-61, and on 13 June 2007 issued Broadcasting Public Notice 2007-61-1, calling for applications for a broadcasting licence to carry on a radio programming undertaking to serve Windsor, Ontario.

On 22 June 2007, the Commission issued Broadcasting Public Notice CRTC 2007-67, calling for applications for a broadcasting licence to carry on a radio programming undertaking to serve Peterborough, Ontario.

In response to these calls, the Commission has received a number of applications for licences to serve these markets.

Some of these applications are technically mutually exclusive. These applications are:

For Owen Sound

Items 1 to 4 are technically mutually exclusive proposing the use of the frequency 92.3 MHz.

These applications will be treated as competitive radio applications for Owen Sound.

For Windsor

Items 5 and 6 are technically mutually exclusive proposing the use of the frequency 95.9 MHz.

These applications, along with items 7 and 8 will be treated as competitive radio applications for Windsor.

For Peterborough

Items 9 to 16 are technically mutually exclusive proposing the use of the frequency 96.7 MHz.

In addition, items 17 and 18 propose new commercial radio services for Kawartha Lakes that are also technically mutually exclusive for the use of the frequency 96.7 MHz. While these applications were not submitted in response to Broadcasting Public Notice CRTC 2007-67, the proximity of Kawartha Lakes to Peterborough and their proposed use of 96.7 MHz render these applications technically mutually exclusive with items 9 to 16. Accordingly, items 17 and 18 will be scheduled as part of the competitive phase at the hearing where the Commission will consider the Peterborough new radio applications.

Items 19 to 38

The Commission intends to consider, subject to interventions, items 19 to 38 during the non-appearance phase of the public hearing.

1. **Owen Sound, Ontario**
Application No. 2006-0953-9

Application by **2079966 Ontario Limited** for a licence to operate an English-language FM commercial radio programming undertaking in Owen Sound.

The new station would operate on frequency 92.3 MHz (channel 222B) with an average effective radiated power of 32,000 watts (non-directional antenna/antenna height of 104 metres).

7. **Windsor, Ontario**
Application No. 2007-1124-3

Application by the **Canadian Broadcasting Corporation** to amend the licence of the English-language radio programming undertaking CBE Windsor.

The licensee proposes to add an FM transmitter in downtown Windsor to broadcast the programming of CBE, in order to adequately serve the population of Windsor.

The transmitter would operate on frequency 102.3 MHz (channel 272A) with an average effective radiated power of 690 watts (maximum effective radiated power of 3,300 watts/antenna height of 74.2 metres).

The licensee advised that a “nested” FM solution is the best means to improve the access to CBE and enhance the quality of service to Windsor-area listeners, especially those in Windsor’s downtown core. In addition, it noted that half of the potential listener base has been lost to the Detroit market and half of what remains does not listen to AM at all.

The Commission may withdraw this application from the public hearing if it is not advised by the Department of Industry, at least twenty days prior to the hearing, that the application is technically acceptable.

8. **Windsor, Ontario**
Application No. 2007-1125-1

Application by the **Canadian Broadcasting Corporation** to amend the licence of the French-language radio programming undertaking CBEF Windsor.

The licensee proposes to add an FM transmitter at Windsor to broadcast the programming of CBEF, in order to adequately serve the population of Windsor.

The transmitter would operate on frequency 105.5 MHz (channel 288A) with an average effective radiated power of 620 watts (maximum effective radiated power of 2 940 watts/antenna height of 74.2 metres).

The licensee advised that a “nested” FM solution is the best means to improve the access to CBEF and enhance the quality of service to Windsor-area listeners, especially those in Windsor’s downtown core. In addition, it noted that half of the potential listener base has been lost to the Detroit market and half of what remains does not listen to AM at all.

Application No. 2007-0006-4

Application by **591989 B.C. Ltd.** to convert the English-language commercial radio station CKRU Peterborough from the AM band to the FM band.

The new station would operate on frequency 96.7 MHz (channel 244C1) with an average effective radiated power of 6,000 watts (maximum effective radiated power of 20,000 watts/antenna height of 273.2 metres).

The applicant proposes to maintain CKRU's current Oldies music format on the proposed FM station.

The applicant is also requesting approval to operate under the condition of licence set out in Public Notice CRTC 1998-132 allowing it to broadcast a minimum level of 30% Canadian content in any broadcast week where at least 90% of musical selections from content category 2 that it broadcasts are selections released before 1 January 1981.

The applicant is requesting permission to simulcast the programming of the new FM station on CKRU for a period of three months from the date of implementation of the new station.

The applicant is also requesting, pursuant to sections 9(1)(e) and 24(1) of the *Broadcasting Act*, the revocation of the licence of CKRU effective at the end of the simulcast period.

This application requires the issuance of a new licence.

36. **Cobourg and Toronto, Ontario**
Application Nos 2007-0811-7 and 2007-1329-9

Applications by **MZ Media Inc.** for a licence to operate CFMZ-FM Cobourg as a new English-language FM commercial specialty radio programming undertaking.

The licensee stated that CFMZ-FM Cobourg would operate on frequency 103.1 MHz (channel 276C1) with an effective radiated power of 86,700 watts (non-directional antenna/effective antenna height of 252 metres) which are the presently authorized technical parameters.

The licensee proposes, on average, up to a maximum level of 24 hours per week of local programming relevant to the Cobourg and Northumberland County area on the new station.

The proposed 24 hours of local programming could consist of up to 18 hours 54 minutes of

advertising content directed to Cobourg and Northumberland County listeners. Of the 18 hours 54 minutes of advertising, up to 12 hours 36 minutes would be differentiated local advertising, where such advertising is not broadcast on the applicant's CFMZ-FM-1 Toronto station 96.3 MHz during the same broadcast week.

The balance of the 24 hours of local programming would consist of up to 4 hours 12 minutes of locally relevant spoken word content. This would include arts billboards, PSA's, community messages, regional information, station ID's and promos specific to the Cobourg and Northumberland County area.

Programming will originate from the licensee's Toronto studio, but be produced for exclusive broadcast on the new Cobourg FM station.

Subject to the approval of the above application, the licensee also proposes to amend the broadcasting licence of its English-language Specialty FM commercial radio programming undertaking CFMZ-FM-1 Toronto, Ontario by deleting its transmitter CFMZ-FM Cobourg, Ontario.

38. **Winkler/Morden, Manitoba**
Application No. 2007-1095-6

Application by **Golden West Broadcasting Ltd.** (Golden West) to operate an English-language FM commercial radio programming undertaking in Winkler/Morden, Manitoba.

The new station would operate on frequency 103.7 MHz (channel 279B) with an effective radiated power of 27,000 watts (non-directional antenna/antenna height of 51.7 metres).

The applicant would maintain its current country music format targeting listeners aged 18 to 40.

Approval of this application will see the licensee exceed the ownership limits for commercial radio licensees as set out in Public Notice CRTC 1998-41 dated 30 April 1998, *Commercial Radio Policy 1998* (the policy). Under the policy, "in markets with less than eight commercial stations operating in a given language, a person may be permitted to own or control as many as three stations operating in that language, with a maximum of two stations in any one frequency band." In the case of Golden West, approval of these technical parameters will see the new Winkler/Morden FM station overlap the 3mV/m contours of CJEL-FM Winkler and the 5mV/m contours of CKMW Winkler/Morden and CFAM Altona.

The Commission may withdraw this application from the public hearing if it is not advised by the Department of Industry, at least twenty days prior to the hearing, that the application is technically acceptable.

This application requires the issuance of a new licence.

Public Participation

Deadline for interventions/comments

15 November 2007

The intervention must be received by the CRTC and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays.

The intervention must include one of the following statements in either the first or the last paragraph:

- 1 - I request to appear at the public hearing.
- 2 - I do not want to appear at the public hearing.

Your intervention will be considered by the Commission, and will form part of the public record of the proceeding without further notification to you, provided the procedure set out below has been followed. You will be contacted only if your submission raises procedural questions.

Submit your written intervention to the Secretary General of the Commission in **only one** of the following formats:

by using the
[\[Broadcasting intervention/comments form\]](#)

Or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

or

by fax at
819-994-0218

A true copy **must** be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line *****End of document***** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.

In the event that the application is brought to the oral phase of the hearing, and if you wish to appear, you must provide reasons why your written comments are not sufficient and why an appearance is necessary.

Persons requiring communications support such as assistance listening devices and sign language interpretation are requested to inform the commission at least twenty (20) days before the commencement of the public hearing so that the necessary arrangements can be made.
