

## Broadcasting Decision CRTC 2008-316

Ottawa, 19 November 2008

### **Rawlco Radio Ltd.**

Big River and Prince Albert, Saskatchewan

*Application 2008-1196-0, received 4 September 2008*

*Broadcasting Public Notice CRTC 2008-84*

*26 September 2008*

### **CKBI Prince Albert – New transmitter at Big River**

1. The Commission **approves** the application by Rawlco Radio Ltd. to amend the broadcasting licence of the English-language commercial AM radio programming undertaking CKBI Prince Albert in order to operate an FM transmitter at Big River, Saskatchewan.
2. The new transmitter will operate at 92.5 MHz (channel 223A) with an average effective radiated power of 1,200 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 19 November 2010. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

*This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>.*
