

## Broadcasting Public Notice CRTC 2008-49

Ottawa, 28 May 2008

### Renewals for radio programming undertaking licences due to expire in 2008

#### Deadline for intervention/comments:

**2 July 2008**

[\[Broadcasting intervention/comments form\]](#)

The Commission announces that it has received licence renewal applications for commercial radio programming undertakings whose licences are due to expire on 31 August 2008, as listed in this public notice. These applications raise no concerns and are complete.

The Commission intends to renew these broadcasting licences for a full seven year term, subject to any interventions. The conditions specified in the following applicable Public Notices as well as the conditions contained in the current licences would apply:

Public Notice CRTC 2000-156 – Campus radio stations

Public Notice CRTC 2000-157 – Community radio stations

Public Notice CRTC 1999-137 – Commercial radio stations

It should be noted that in *Commercial Radio Policy 2006*, Broadcasting Public Notice CRTC 2006-158, 15 December 2006 (Public Notice 2006-158), the Commission set out a new approach to the development and promotion of Canadian artists, which is expected to be implemented in the not too distant future. In order to reflect a new emphasis on development initiatives that lead to the creation of audio content for broadcast using Canadian resources, the Commission will replace the expression "Canadian talent development" (CTD) with "Canadian content development" (CCD). Each radio station holding a commercial radio licence will be required to make a basic annual CCD contribution based on its revenues in the previous broadcast year. The basic contribution requirement will be enacted as a regulation. However, until such time as the regulation comes into force, the Commission intends to impose the basic contribution as a condition of licence.

The condition of licence would read as follows:

The licensee shall make a basic annual contribution to Canadian content development (CCD). The amount of the contribution shall be determined in accordance with the policy set out in *Commercial Radio Policy 2006*, Broadcasting Public Notice CRTC 2006-158, 15 December 2006, as amended from time to time (Public Notice 2006-158). The contribution shall be allocated to parties and initiatives fulfilling the definition of eligible initiatives in Public Notice 2006-158.

The licensee shall allocate 60% of this basic annual CCD contribution to FACTOR or MUSICACTION.

This condition of licence shall expire upon the coming into force of the amendments to the *Radio Regulations, 1986* relating to CCD.

\* Stations identified with an asterisk have been monitored by Commission staff. The monitoring report has been placed on each licensee's public examination file. A copy can be obtained by contacting one of the CRTC documentation centres.

It is noted that other such licences expiring in 2008 will be dealt with at a later date.

The intervention must be received by the CRTC and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays.

Your intervention will be considered by the Commission, and will form part of the public record of the proceeding without further notification to you, provided the procedure set out below has been followed. You will be contacted only if your submission raises procedural questions.

Submit your written intervention to the Secretary General of the Commission in **only one** of the following formats:

A true copy must be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using E-Mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line **\*\*\*End of document\*\*\*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.
