

Telecom Decision CRTC 2009-781

Ottawa, 16 December 2009

Saskatchewan Telecommunications – Application for forbearance from the regulation of residential local exchange services

File number: 8640-S22-200909616

In this decision, the Commission approves SaskTel's request for forbearance from the regulation of residential local exchange services in the exchanges of Melville and Yorkton, Saskatchewan.

Introduction

1. The Commission received an application by Saskatchewan Telecommunications (SaskTel), dated 25 June 2009, in which the company requested forbearance from the regulation of residential local exchange services¹ in the exchanges of Melville and Yorkton, Saskatchewan.
2. The Commission received submissions and/or data regarding SaskTel's application from Access Communications Co-operative Limited (Access) and Rogers Communications Inc. (RCI). The public record of this proceeding, which closed on 22 October 2009, is available on the Commission's website at www.crtc.gc.ca under "Public Proceedings" or by using the file number provided above.

Commission's analysis and determinations

3. The Commission has assessed SaskTel's application based on the local forbearance test set out in Telecom Decision 2006-15, as amended by the Governor in Council's *Order Varying Telecom Decision CRTC 2006-15*, P.C. 2007-532, 4 April 2007 (modified Telecom Decision 2006-15), by examining the four criteria set out below.

a) Product market

4. The Commission received no comments with respect to SaskTel's proposed list of residential local exchange services.
5. The Commission notes that SaskTel is seeking forbearance for 15 tariffed residential local exchange services. The Commission also notes that in Telecom Decision 2007-66 it found all of these services to be appropriate for forbearance. The list of approved services is set out in the Appendix to this decision.

¹ In this decision, "residential local exchange services" refers to local exchange services used by residential customers to access the public switched telephone network and any associated service charges, features, and ancillary services.

b) Competitor presence test

6. The Commission notes that for the exchanges of Melville and Yorkton, information provided by parties confirms that there are, in addition to SaskTel, two independent, facilities-based telecommunications service providers, including a provider of mobile wireless services.² Each of these service providers offers local exchange services in the market and is capable of serving at least 75 percent of the number of residential local exchange service lines that SaskTel is capable of serving, and at least one, in addition to SaskTel, is a facilities-based, fixed-line telecommunications service provider.
7. Accordingly, the Commission determines that the exchanges of Melville and Yorkton, Saskatchewan, meet the competitor presence test.

c) Competitor quality of service (Q of S) results

8. The Commission notes that SaskTel submitted competitor Q of S results for the period of December 2008 to May 2009. Pursuant to Telecom Decision 2009-514, the Commission directed SaskTel to file revised results that reflected the determination set out in that decision regarding the “no facilities available” (NFA) definition or explain why it did not need to file revised results.
9. On 22 October 2009, SaskTel filed its explanation as to why revised competitor Q of S results are not required. The Commission is satisfied with SaskTel's explanation and determines that the NFA definition was applied correctly by the company.
10. The Commission has reviewed SaskTel's competitor Q of S results and finds that the company has demonstrated that during this six-month period it
 - i. met, on average, the Q of S standard for each indicator set out in Appendix B of modified Telecom Decision 2006-15, as defined in Telecom Decision 2005-20, with respect to the services provided to competitors in its territory; and
 - ii. did not consistently provide any of those competitors with services that were below those Q of S standards.
11. Accordingly, the Commission determines that SaskTel meets the competitor Q of S criterion for this period.

d) Communications plan

12. The Commission has reviewed SaskTel's draft communications plan and is satisfied that it meets the information requirements set out in modified Telecom Decision 2006-15. The Commission **approves** the proposed communications plan and directs SaskTel to provide the resulting communications materials to its customers in both official languages, where appropriate.

² These competitors are Access and RCI.

Conclusion

13. The Commission determines that SaskTel's application regarding the exchanges of Melville and Yorkton, Saskatchewan meets all the local forbearance criteria set out in modified Telecom Decision 2006-15.
14. Pursuant to subsection 34(1) of the *Telecommunications Act* (the Act), the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in modified Telecom Decision 2006-15, in relation to the provision by SaskTel of residential local exchange services listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2 as they pertain to residential customers only, in these exchanges, would be consistent with the Canadian telecommunications policy objectives set out in section 7 of the Act.
15. Pursuant to subsection 34(2) of the Act, the Commission finds as a question of fact that these residential local exchange services are subject to a level of competition in these exchanges sufficient to protect the interests of users of these services.
16. Pursuant to subsection 34(3) of the Act, the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in modified Telecom Decision 2006-15, in relation to the provision by SaskTel of these residential local exchange services in these exchanges would be unlikely to impair unduly the continuance of a competitive market for these services.
17. In light of the above, the Commission **approves** SaskTel's application for forbearance from the regulation of the local exchange services listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2, as they pertain to residential customers only, in the exchanges of Melville and Yorkton, Saskatchewan, subject to the powers and duties that the Commission has retained as set out in modified Telecom Decision 2006-15. This determination takes effect as of the date of this decision. The Commission directs SaskTel to file revised tariff pages within 30 days of the date of this decision.
