

Broadcasting Notice of Consultation CRTC 2009-84

Ottawa, 20 February 2009

Call for comments on proposed revisions to the requirements set out in the lists of eligible satellite services

The Commission calls for written comments on proposed revisions to certain requirements set out in the lists of eligible satellite services. The Commission proposes, among other things, to eliminate the requirement that certain signals be received from licensed satellite relay distribution undertakings. The deadline for submitting comments is 23 March 2009.

Introduction

1. Currently, licensed broadcasting distribution undertakings (BDUs) are generally prohibited from distributing certain services, including the U.S. commercial networks (ABC, CBS, NBC and FOX) and the non-commercial PBS network (collectively, the U.S. 4+1 signals), unless those services are received from a licensed satellite relay distribution undertaking (SRDU). In Broadcasting Public Notice 2008-100, the Commission stated that it would amend the lists of eligible satellite services (the lists) in order to remove this requirement.
2. Accordingly, in the appendix to this notice, the Commission has set out for comment an amended version of the lists in which it has deleted the above-noted requirement from sections A and B of the *List of Part 2 Eligible Satellite Services* (the Part 2 list) for Class 1 and 2 licensees and the first section of the *List of Part 3 Eligible Satellite Services* (the Part 3 list) for Class 3 licensees.
3. The Commission has also revised certain other related requirements set out in the lists concerning the distribution of U.S. 4+1 signals. The intent is to continue to limit the number or sets of U.S. commercial network signals that may be distributed unless they are all received over the air. In particular, BDUs would not be authorized to distribute U.S. commercial network signals unless they do not receive any such signals over the air at the local head end. Similarly, the revisions relating to PBS signals are meant to reflect the original purpose of the current provisions, i.e., to permit “all cable licensees the carriage of a duplicate PBS service, received via satellite from Cancom,”¹ while also implementing the Commission’s decision to remove the SRDU requirement. Specifically, a Class 1, 2 or 3 undertaking receiving any PBS signal(s) over the air at the local head end would be authorized to distribute another PBS signal pursuant to the lists. Other Class 1, 2 or 3 undertakings would be authorized to distribute a maximum of two PBS services pursuant to the lists.

¹ See *Canadian Satellite Communications Inc.*, Decision CRTC 95-20, 19 January 1995.

4. The Commission further proposes to revise the requirement set out in the first section of the Part 3 list, generally applicable to Class 3 undertakings, relating to the distribution of licensed television programming undertakings offering TVA or CTV programming, as follows:

In the case of licensed television programming undertakings offering TVA or CTV programming, a licensee also distributing the signal of a local TVA or CTV affiliate shall delete the duplicate programming from the services offered pursuant to this List or substitute the local service(s) when programming is identical.

5. Finally, in Broadcasting Public Notice 2008-100, the Commission expressed the view that the elimination of certain limitations in its *Exemption order respecting terrestrial relay distribution network undertakings* (the TRDU exemption order) would encourage greater competition in the signal transport sector. The Commission stated that it would publish a revised proposed TRDU exemption order for comment no later than 1 April 2009. In Broadcasting Notice of Consultation 2009-83, also issued today, the Commission has called for comments on proposed revisions to the order. In particular, the Commission proposes to delete the requirement that exempt TRDUs have an affiliation agreement with the distribution undertakings to which they provide services.
6. Consistent with this approach, the Commission also proposes to delete comparable requirements from the conditions applicable to the distribution of services on the lists, unless parties can present compelling reasons for retaining such requirements. Accordingly, in the proposed version of the lists set out in the appendix, the Commission has deleted the following condition, currently applicable to services found in sections A and B of the Part 2 list and in the first section the Part 3 list:

In the case of signals received from a licensed SRDU, ASN, the CBC English- and French-language Television Services and foreign satellite services, licensees are required to enter into the necessary contractual arrangements for such carriage.

The Commission also proposes to delete a similar requirement for the carriage of foreign services, as set out in section C of the Part 2 list, in the second section of the Part 3 list, in sections A, B and C of the *List of DTH Eligible Satellite Services*, and in the list of services eligible for digital distribution only (Appendix D).

Other matters

7. The Commission notes that, by virtue of the current distribution and linkage requirements for Class 1 and 2 licensees and direct-to-home (DTH) satellite undertakings set out in Broadcasting Public Notices 2005-45 and 2005-46, services authorized for distribution by way of the lists may only be distributed on a discretionary basis. A specific condition of licence is required in order to distribute such signals as part of the basic service.

8. In Broadcasting Public Notice 2008-100, the Commission stated that it would simplify and consolidate the lists in a single list for services authorized for either analog or digital distribution by all BDUs. The Commission anticipates that such further changes to the lists would be made public for comment in conjunction with the amendments to the *Broadcasting Distribution Regulations* to come into effect in 2011.

Call for comments

9. The Commission invites written comments on the proposed revisions to the lists set out in the appendix to this notice. The Commission will accept comments that it receives on or before **23 March 2009**.
10. The Commission will not formally acknowledge written comments. It will, however, fully consider all comments, and they will form part of the public record of the proceeding, provided that the procedures for filing set out below have been followed.

Procedure for filing comments

11. Interested parties can file their comments to the Secretary General of the Commission:

- **by using the**
[Broadcasting Interventions/Comments Form](#)

OR

- **by mail to**
CRTC, Ottawa, Ontario K1A 0N2

OR

- **by fax at**
819-994-0218

12. Submissions longer than five pages should include a summary.
13. Please number each paragraph of your submission. In addition, please enter the line ***End of document*** following the last paragraph. This will help the Commission verify that the document has not been damaged during transmission.

Important notice

14. Note that all information that you provide as part of this public process, except information granted confidentiality, whether sent by postal mail, facsimile, e-mail or through the Commission's website at www.crtc.gc.ca, becomes part of a publicly accessible file and will be posted on the Commission's website. This information includes your personal information, such as your full name, e-mail address, postal/street address, telephone and facsimile number(s), and any other personal information you provide.
15. The personal information you provide will be used and may be disclosed for the purpose for which the information was obtained or compiled by the Commission, or for a use consistent with that purpose.
16. Documents received electronically or otherwise will be put on the Commission's website in their entirety exactly as you send them, including any personal information contained therein, in the official language and format in which they are received. Documents not received electronically will be available in PDF format.
17. Please note that the information you provide to the Commission as part of this public process is entered into an unsearchable database dedicated to this specific public process. This database is accessible only from the Web page of this particular public process. As a result, a general search of our website with the help of either our own search engine or a third-party search engine will not provide access to the information which was provided as part of this public process.
18. The Commission encourages interested parties to monitor the public examination file and the Commission's website for additional information that they may find useful when preparing their comments.

** A pay audio programming undertaking may not be used for linkage purposes for the distribution of any non-Canadian eligible satellite services.

*** Playboy TV is only authorized for distribution at the specific request of a subscriber. Distributors are not permitted to package Playboy TV in such a way that subscribers are obligated to purchase Playboy TV in order to purchase any other programming service. Distributors are required to take measures to fully block the reception of both the audio and video portions of Playboy TV to subscribers that request it not be receivable in their home (in either unscrambled or scrambled analog form).

Authorization for the services in Sections A and B is subject to the following:

- Licensees receiving any U.S. PBS signal(s) over the air at the local head end may distribute one additional PBS signal pursuant to this List. All other licensees may distribute a maximum of two PBS services pursuant to this List.

- Licensees receiving U.S. commercial network signals over the air at the local head end may not distribute additional U.S. commercial network signals pursuant to this List. Other licensees may not distribute the signal of more than one affiliate of the same commercial U.S. network pursuant to this List.

♦ Denotes a service in a language other than English or French added before 16 December 2004.
