Application by **UCFV Campus and Community Radio Society** to amend the broadcasting licence of the English-language community based campus FM radio programming undertaking CIVL-FM Abbotsford.

The licensee proposes to amend the licence by changing the station's frequency from 88.5 MHz (channel 203A) to 101.7 MHz (channel 269A). The licensee also proposes to change the authorized contours by increasing the average effective radiated power (ERP) from 92 watts to 220 watts (directional antenna with a maximum ERP from 300 watts to 550 watts and an effective height of antenna above average terrain of 121 metres) and by moving the antenna site.

The licensee states that, with such a power increase, the population in the 3.0 mV/m contour would increase from 49,383 to 60,000 and from 226,326 to 270,000 in the 0.5 mV/m contour.
