Application by **Aylesford Community Baptist Church** to renew the broadcasting licence for the religious radio programming undertaking CVCR-FM Aylesford. The licence expires 31 March 2010.

It appears to the Commission that the licensee may have failed to comply with section 9(2) of the *Radio Regulations, 1986* concerning the submission of annual returns for years 2005, 2006 and 2008.

2. Halifax, Nova Scotia
Application No. 2010-0023-1

Application by **CKDU-FM Society** relating to the broadcasting licence for the English-language community-based campus radio programming undertaking CKDU-FM Halifax.

The licensee proposes to change the location of the transmission site and to amend the authorized contours by changing its antenna's radiation pattern and by decreasing the average effective radiated power from 3,200 watts to 2,640 watts (non-directional antenna with an effective height of antenna above average terrain of 156.5 metres).

The licensee indicated that its current transmission site will no longer be available because it was deemed to be a public safety hazard. The licensee also indicated that, since the proposed site is considerably higher than the current site, there will be secondary benefits to the move such as an increase in the service area as well as in the quality of CKDU-FM's signal within its broadcast range.

The Commission notes that the population will increase from 226,444 to 304,316 within the 3 mV/m contour, and from 335,446 to 371,866 within the 0.5 mV/m contour.
