Additional reference: 2010-334

Ottawa, 26 November 2010

Addition of a general authorization permitting broadcasting distribution undertakings to distribute a local package – Correction

1. In the executive summary to *Addition of a general authorization permitting broadcasting distribution undertakings to distribute a local package*, Broadcasting Regulatory Policy CRTC 2010-840, 10 November 2010, the Commission inadvertently referred to that regulatory policy as an “information bulletin.” That summary should therefore read as follows (change in bold):

*In this **regulatory policy**, the Commission sets out a general authorization that grants broadcasting distribution undertakings an exception to section 5 of the Broadcasting Distribution Regulations, subject to certain conditions, so as to permit them to distribute a local package both in and outside mandatory markets for digital transition, without having to provide users of the local package with the full basic service.*

Secretary General
