NorthernTel, Limited Partnership – Application for forbearance from the regulation of business local exchange services

File number: 8640-N51-201102516

In this decision, the Commission approves NorthernTel's request for forbearance from the regulation of business local exchange services in the exchange of South Porcupine, Ontario.

Introduction

1. The Commission received an application by NorthernTel, Limited Partnership (NorthernTel), dated 7 February 2011, in which the company requested forbearance from the regulation of business local exchange services¹ in the exchange of South Porcupine, Ontario.
2. The Commission received submissions and/or data regarding NorthernTel's application from Bragg Communications Inc., operating as EastLink (EastLink). The public record of this proceeding, which closed on 4 March 2011, is available on the Commission's website at www.crtc.gc.ca under "Public Proceedings" or by using the file number provided above.

Commission's analysis and determinations

3. The Commission has assessed NorthernTel's application by examining the four criteria set out below. These criteria are based on the local forbearance test originally set out in Telecom Decision 2006-15 and applied to the small incumbent local exchange carriers, with modifications, in Telecom Regulatory Policy 2009-379.

a) Product market

4. The Commission received no comments with respect to NorthernTel's proposed list of business local exchange services.
5. The Commission notes that NorthernTel is seeking forbearance from the regulation of 18 tariffed business local exchange services. The Commission also notes that in Telecom Decision 2010-273, it found all of these services to be eligible for

¹ In this decision, "business local exchange services" refers to local exchange services used by business customers to access the public switched telephone network and any associated service charges, features, and ancillary services.

forbearance. Since that decision was issued, however, the Commission has forbore conditionally from regulating one of these services, Integrated Voice Messaging Service (IVMS), in Telecom Regulatory Policy 2010-777. Forbearance from the regulation of this service will take effect on the date that NorthernTel issues revised tariff pages for the service, pursuant to Telecom Regulatory Policy 2010-777. A list of the 17 remaining approved services is set out in the Appendix to this decision.

b) Competitor presence test

6. The Commission notes that for the exchange of South Porcupine, information provided by parties confirms that there is, in addition to NorthernTel, one independent facilities-based fixed-line telecommunications service provider² that offers local exchange services in the market and is capable of serving at least 75 percent of the number of business local exchange service lines that NorthernTel is capable of serving.
7. Accordingly, the Commission determines that the exchange of South Porcupine meets the competitor presence test.

c) Competitor quality of service

8. The Commission notes NorthernTel's attestation that it received no complaints from competitors in the six months prior to the date of the application. The Commission also notes that it received no comments with respect to NorthernTel's competitor quality of service.
9. Accordingly, the Commission determines that the quality of service provided by NorthernTel to its competitors is of a sufficient level to grant forbearance.

d) Communications plan

10. The Commission has reviewed NorthernTel's proposed communications plan and is satisfied that it meets the information requirements set out in Telecom Decision 2006-15. The Commission **approves** the proposed communications plan and directs NorthernTel to provide the resulting communications materials to its customers, in both official languages where appropriate.

Conclusion

11. The Commission determines that NorthernTel's application regarding the exchange of South Porcupine, Ontario meets all the local forbearance criteria set out in Telecom Decision 2006-15 and modified by Telecom Regulatory Policy 2009-379 for small incumbent local exchange carriers.

² This competitor is EastLink.

12. Pursuant to subsection 34(1) of the *Telecommunications Act* (the Act), the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in Telecom Decision 2006-15, in relation to the provision by NorthernTel of the business local exchange services listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2 as they pertain to business customers only, in this exchange, would be consistent with the Canadian telecommunications policy objectives set out in section 7 of the Act.
13. Pursuant to subsection 34(2) of the Act, the Commission finds as a question of fact that these business local exchange services are subject to a level of competition in this exchange sufficient to protect the interests of users of these services.
14. Pursuant to subsection 34(3) of the Act, the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in Telecom Decision 2006-15, in relation to the provision by NorthernTel of these business local exchange services in this exchange would be unlikely to impair unduly the continuance of a competitive market for these services.
15. In light of the above, the Commission **approves** NorthernTel's application for forbearance from the regulation of the local exchange services listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2, as they pertain to business customers only, in the exchange of South Porcupine, Ontario, subject to the powers and duties that the Commission has retained as set out in Telecom Decision 2006-15. This determination takes effect as of the date of this decision. The Commission directs NorthernTel to file revised tariff pages with the Commission within 30 days of the date of this decision.
