Application 2011-0746-7, received 28 April 2011

CFKS-TV Sherbrooke – Licence amendment

1. The Commission **approves** the application by V Interactions inc. to amend the broadcasting licence for the television programming undertaking CFKS-TV Sherbrooke to add a post-transition digital transmitter to serve the population of Sherbrooke. The Commission received two interventions in opposition to this application. The interventions were filed by individuals who do not reside within the station's service area. The public record for this proceeding can be found on the Commission's website at www.crtc.gc.ca under "Public Proceedings."
2. The new post-transition digital transmitter, CFKS-DT Sherbrooke, will operate on channel 30 with an average effective radiated power (ERP) of 2,620 watts (maximum ERP of 4,630 watts with an effective height of antenna above average terrain of 591.19 metres).
3. The Commission reminds the licensee that pursuant to section 22(1) of the *Broadcasting Act*, this licence amendment will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
4. The new digital transmitter must be operational at the earliest possible date and in any event no later than 31 August 2011. The Commission expects the licensee to inform it in writing once this transmitter is in operation.

Secretary General

**This decision is to be appended to the licence.*
