Application 2010-1589-2**

Application by **Ethnic Channels Group Limited** for a broadcasting licence to operate a national ethnic Category 2 specialty programming undertaking to be known as South Asian News and Information TV.

The applicant proposes to offer 100% of its programming in the English language.

The applicant stated that the programming would be devoted to news, information and public affairs programming about or reflecting views from the South Asian continent.

The applicant proposes to offer programming from the following categories set out in item 6 of Schedule I of the *Specialty Services Regulations, 1990*: 1, 2(a), 2(b), 3, 11, 12, 13 and 14.

The applicant proposes the following condition of licence:

- No more than 10% of all programming broadcast during the broadcast month shall be drawn from categories 2(b) and 11.

The applicant requests that it be authorized to devote up to 6 of the 12 minutes of advertising material permitted during each clock hour to the broadcast of local and regional advertising.

The applicant is seeking authorization to offer both a standard and a high definition version of its service.

The applicant also stated that while it would agree to certain conditions of licence regarding accessibility, due to financial concerns it could not adhere to the Commission's policy relating to the captioning of English-language programming.

Application 2010-1777-3**

Application by **2256247 Ontario Limited** for a broadcasting licence to operate a national English-language Category 2 specialty programming undertaking to be known as Live Music Channel.

The applicant stated that the programming would be dedicated predominantly to live music concerts, including live-to-air and live-to-tape concerts, and concert-related programming. Programming will include complementary programs related to concerts and performers, including videos, events coverage, documentaries, films, interviews, news and commentaries.

The applicant proposes to air programming from categories 8(b) and 8(c) solely as it relates to live music concerts and their performers, such as to promote or showcase the artist or the music of a live music concert airing on the proposed service.

The applicant plans to offer 30% of its programming content in high definition in year one, increasing to 50% by year three.

The applicant proposes to offer programming from the following categories set out in item 6 of Schedule I of the *Specialty Services Regulations, 1990*: 1, 2(a), 2(b), 3, 5(b), 7(a), 7(c), 7(d), 7(g), 8(a), 8(b), 8(c), 9, 10, 11, 12, 13 and 14.

The applicant proposes as a condition of licence that no more than 10% of all programming during the broadcast week shall be drawn from categories 7(a), 7(c) and 7(d) combined.

The applicant also proposes as a condition of licence that no more than 10% of all programming during the broadcast week shall be drawn from categories 8(b) and 8(c) combined.

The applicant is also seeking authorization to offer both a standard and a high definition version of the proposed service.

Toronto, Ontario

**12. Lower Sackville, Nova Scotia
Application 2010-1706-2**

Application by **Cobequid Radio Society** for a broadcasting licence to operate an English-language Type B community FM radio programming undertaking in Lower Sackville.

In *Campus and community radio policy*, Broadcasting Regulatory Policy CRTC 2010-499, 22 July 2010, the Commission announced that it would remove the distinction between Type A and Type B community stations. In order to do so entirely, the Commission must amend the *Radio Regulations, 1986*. As such, when the regulations are amended, the type designation will become irrelevant and this station will be a community station.

The new station would operate on frequency 106.9 MHz (channel 295LP) with an average effective radiated power of 50 watts (non-directional antenna with an effective height of antenna above average terrain of 47 metres).

The applicant proposes to broadcast 126 hours of programming per broadcast week, of which 124.5 hours will be local station produced programming. The applicant also proposes a hybrid country music format, targeting an audience of 45 years and above.

The Commission may withdraw this application from the public hearing if it is not advised by the Department of Industry, at least twenty days prior to the hearing, that the application is technically acceptable.

Applicant's address:

69 Colonel Joseph Scott Drive

13. Laval, Quebec
Application 2010-1679-1

Application by **7590474 Canada Inc.** to acquire the assets of the French-language radio programming undertaking CJLV Laval from Diffusion Laval Inc. and for a new broadcasting licence to continue the operation of the undertaking under the same terms and conditions as those in effect under the current licence.

The applicant is a corporation controlled by Radio Humsafar Inc., which is controlled by its majority shareholder Mr. Jasvir Singh Sandhu.

Pursuant to the purchase agreement, the applicant will purchase the assets for \$200,000. The applicant has not proposed a tangible benefits package, citing the financial difficulties of the station.

Applicant's address:

2040 Highway 440
Laval, Quebec
H7S 2M9
Fax: 450-680-1598

Examination of application:

At the applicant's address

14. Toronto, Ontario
Application 2010-1103-0

Application by **Intercity Broadcasting Network Inc.** for a broadcasting licence to operate an English-language commercial specialty FM radio programming undertaking in Toronto.

The new station would operate on frequency 98.7 MHz (channel 254B1) with an average effective radiated power (ERP) of 446 watts (maximum ERP of 1,000 watts with an effective height of antenna above average terrain of 276.8 metres).

The applicant proposes to broadcast a World Beat and Non-Classic Religious Music format with at least 50% of its weekly music drawn from subcategory 33 (World beat and international).

The service will be targeted to the local Caribbean and African communities.

Background

In *English-language FM radio station in Toronto*, Broadcasting Decision CRTC 2006-135, 10 April 2006 (Broadcasting Decision 2006-135), the Commission approved in part an application by A. Fitzroy Gordon, on behalf of a corporation to be incorporated, for a broadcasting licence to operate an English-language commercial specialty FM radio station in Toronto. The applicant was required to file an application proposing the use of another frequency and technical parameters that would be acceptable to the Commission and the Department of Industry (the Department) for use in the Toronto market.

Despite efforts to identify a frequency and technical parameters that would be acceptable to the Commission and the Department, no application was submitted within the prescribed period and as a consequence the authorization lapsed.

Since then, Mr. Gordon has pursued his efforts to find an acceptable frequency and has recently received permission from the Department to test a proposed signal on 98.7 MHz, which is a 2nd adjacent to the Canadian Broadcasting Corporation station CBLA-FM, which operates on 99.1 MHz.

Following this testing and in reviewing the proposed technical parameters contained in application 2010-1103-0, the Commission has been advised by the Department that the application is technically acceptable.

Intercity Broadcasting Network Inc. has indicated that its application is essentially the same as the application approved by the Commission in Broadcasting Decision 2006-135.

Given that the Department of Industry has indicated that the application is technically acceptable, that the applicant is proposing to offer essentially the same service to the same communities as approved in Broadcasting Decision 2006-135 and that the authorization lapsed despite efforts before and after the lapse to identify a frequency, the Commission has decided not to issue a call and treat this application as part of a non-appearing hearing.

**19. Vancouver and Lower Mainland, British Columbia
Application 2010-1653-5**

Application by **AEBC Internet Corp.** for a broadcasting licence to operate a Class 1 terrestrial broadcasting distribution undertaking to serve Vancouver and the Lower Mainland.

The applicant requests the following authorizations:

- a) The licensee is authorized to distribute, at its option, as part of the basic service, the signals of KOMO-TV (ABC), KIRO-TV (CBS), KING-TV (NBC) Seattle, KCPQ (FOX) Tacoma and KCTS-TV (PBS) Seattle, or alternatively for each signal, the signal of a different affiliate of the same network located in the same time zone as that of the licensed area and included in the *Lists of eligible satellite services*, as amended from time to time.
- b) The licensee is authorized to distribute, at its option, CHEK-TV (IND) Victoria as part of its discretionary service.
- c) The licensee is authorized to distribute, at its option, CIVI-TV (A) Victoria as part of its discretionary service.
- d) The licensee is authorized to distribute the following signals on a digital discretionary basis:
 - any of the distant Canadian television signals set out in the *List of Part 3 eligible satellite services*; and
 - a second set of signals that provides the programming of the four U.S. commercial networks (CBS, NBC, ABC, FOX) and the non-commercial PBS network (hereafter referred to as the U.S. 4+1 signals).

The distribution on a discretionary basis on the licensee's digital service of a second set of U.S. 4+1 signals and distant Canadian signals is subject to the provision that the licensee adhere to the requirements regarding non-simultaneous program deletion set out in section 43 of the *Broadcasting Distribution Regulations*. The Commission may suspend the application of this provision, with respect to the signals to be distributed, upon its approval of an executed agreement between the licensee and broadcasters. Such an agreement must deal with issues related to the protection of program rights arising in connection with the discretionary carriage of a second set of U.S. 4+1 signals and distant Canadian signals solely on the licensee's digital service.

- e) The licensee is authorized to distribute, at its option, KVOS-TV (IND) Bellingham and KSTW-TV (IND) Tacoma/Seattle, Washington, as part of its basic service.
- f) The licensee is authorized to distribute, at its option, a special programming service consisting of ethnic and multicultural programs. The licensee shall not distribute as part of this special programming service any commercial message other than sponsorship credits combining no more than the logo, name, address, telephone number and type of activity or profession of the sponsor. The sponsorship credits may contain sound and/or visual images, whether moving or fixed. The sponsorship credits shall have no purpose other than to acknowledge, in a concise and direct manner, the sponsor's contribution and shall at no time constitute a detailed description or promotional device.

Deadline for interventions

28 February 2011

The intervention must be received by the Commission and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays and will not notify a party whose intervention is received after the deadline date. The intervention will not be considered by the Commission and will not be part of the public file.

The intervention must include one of the following statements in either the first or the last paragraph:

1. I request to appear at the public hearing.
2. I do not want to appear at the public hearing.

Interventions will be considered by the Commission and will form part of the public record of the proceeding without further notification to intervening parties, provided the procedure set out below has been followed. Parties will be contacted only if their submissions raise procedural questions.

Written interventions should be submitted to the Secretary General of the Commission in **only one** of the following formats:

by using the
[\[Broadcasting interventions/comments form\]](#)

or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

or

by fax at
819-994-0218

A true copy must be sent to the applicant, and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Parties must ensure that, before initiating service through electronic mode, they will be able to satisfy the Commission, upon request, that service of the notification was completed.

Submissions longer than five pages should include a summary.

Each paragraph of the submission should be numbered. In addition, where the intervention is filed by electronic means, the line *****End of document***** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Interventions should clearly identify the application referred to and indicate whether parties support or oppose the application, or, if they propose changes to it, include the facts and grounds for their proposal.

In the event that the application is brought to the oral phase of the hearing, and if parties wish to appear, they must provide reasons why their written interventions are not sufficient and why an appearance is necessary. Only those parties whose requests to appear have been granted will be contacted by the Commission and invited to appear at the public hearing.

Persons requiring communications support such as assistance listening devices and sign language interpretation are requested to inform the Commission at least twenty (20) days before the commencement of the public hearing so that the necessary arrangements can be made.

Important notice

All information that parties provide as part of this public process, except information granted confidentiality, whether sent by postal mail, facsimile, e-mail or through the Commission's website at www.crtc.gc.ca, becomes part of a publicly accessible file and will be posted on the Commission's website. This information includes personal information, such as full names, e-mail addresses, postal/street addresses, telephone and facsimile numbers, and any other personal information parties provide.

The personal information that parties provide will be used and may be disclosed for the purpose for which the information was obtained or compiled by the Commission, or for a use consistent with that purpose.

Documents received electronically or otherwise will be put on the Commission's website in their entirety exactly as received, including any personal information contained therein, in the official language and format in which they are received. Documents not received electronically will be available in PDF format.

The information that parties provide to the Commission as part of this public process is entered into an unsearchable database dedicated to this specific public process. This database is accessible only from the web page of this particular public process. As a result, a general search of the Commission's website with the help of either its own search engine or a third-party search engine will not provide access to the information that was provided as part of this public process.

The Commission encourages interested parties to monitor the public examination file and the Commission's website for additional information that they may find useful when preparing their interventions.

Examination of documents

An electronic version of the applications is available from the Commission's website by selecting the application number within this notice.

A list of all interventions will also be available on the Commission's website. To access the list, select "Lists of interventions/comments" under "Public Proceedings" from the Commission's website.

Documents are also available during normal office hours at the local address provided in this notice and at the Commission offices and documentation centres directly involved with these applications, or, upon request, within two (2) working days, at any other Commission offices and documentation centres.
