

## Broadcasting Decision CRTC 2011-642

PDF version

Route reference: Part 1 application posted on 11 May 2011

Ottawa, 6 October 2011

**Canadian Broadcasting Corporation**  
Windsor, Ontario

*Application 2011-0791-2*

### **CBET-DT Windsor – Technical change**

1. The Commission **approves** the application by the Canadian Broadcasting Corporation (CBC) to change the technical parameters of the English-language digital television programming undertaking CBET-DT Windsor by increasing the average effective radiated power (ERP) from 12,940 to 13,030 watts (maximum ERP from 25,820 to 26,000 watts), by decreasing the effective height of antenna above average terrain from 191.1 to 186.1 meters and by relocating its transmitter. The Commission did not receive any interventions in connection with this application.
2. CBC stated that the relocation of its transmitter was necessary in order to match the technical parameters approved by the Department of Industry (the Department).
3. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
