

Broadcasting Decision CRTC 2012-602

PDF version

Route reference: Part 1 applications posted on 30 July 2012

Ottawa, 30 October 2012

Canadian Broadcasting Corporation

Iqaluit, Nunavut; Puvirnituaq, Kuujjuarapik, Inukjuak, Salluit and Kuujjuaq (Fort Chimo), Quebec and Sackville, New Brunswick

Applications 2012-0895-0, 2012-0896-8, 2012-0897-6, 2012-0898-4, 2012-0899-2 and 2012-0837-2

CFFB Iqaluit – New transmitters in Puvirnituaq, Kuujjuarapik, Inukjuak, Salluit and Kuujjuaq (Fort Chimo)

1. The Commission **approves** the applications by the Canadian Broadcasting Corporation (CBC) to amend the broadcasting licence for the English-language radio programming undertaking CFFB Iqaluit, Nunavut, in order to operate low-power FM transmitters in Puvirnituaq, Kuujjuarapik, Inukjuak, Salluit and Kuujjuaq (Fort Chimo), Quebec. The Commission did not receive any interventions in connection with these applications.
2. The transmitters will operate in accordance with the following technical parameters:

Location	Frequency	Channel	Average effective radiated power	Effective height of antenna above average terrain
CFFB-FM-8 Puvirnituaq	103.5 MHz	278LP	50 watts	35.7 metres
CFFB-FM-4 Kuujjuarapik	103.5 MHz	278LP	50 watts	29.1 metres
CFFB-FM-6 Inukjuak	103.5 MHz	278LP	50 watts	-0.1 metres
CFFB-FM-7 Salluit	103.5 MHz	278LP	50 watts	-71.4 metres
CFFB-FM-5 Kuujjuaq (Fort Chimo)	103.5 MHz	278LP	50 watts	10 metres

3. The CBC also requested the revocation of its broadcasting licence for the short wave radio undertaking CKCX-SW Sackville, New Brunswick. It indicated that the new transmitters will ensure that the population of the aforementioned locations continues

to be served by the news and regional information programming of its Radio One service when CKCX-SW Sackville ceases operation.

4. Given the licensee's request and pursuant to sections 9(1)(e) and 24(1) of the *Broadcasting Act* (the Act), the Commission **revokes** the broadcasting licence for CKCX-SW Sackville effective 1 November 2012.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the Act, the authority for the new transmitters will only be effective when the Department of Industry (the Department) notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued.
6. Given that the technical parameters approved in this decision are for low-power unprotected FM services, the Commission also reminds the licensee that it will have to select another frequency if the Department so requires.

Secretary General

**This decision is to be appended to the licence.*
