Bell Canada - Ex parte application

File number: Tariff Notices 7394, 7394A and 7394B

- 1. The Commission **approves on an interim basis** the *ex parte* application by Bell Canada, dated 11 June 2013 and amended on 22 July 2013 and on 29 July 2013 subject to the following condition.
- 2. Bell Canada is to advise the Commission of the outcome of the selection process as soon as possible and notify the Commission whether the customer has awarded the contract to Bell Canada. If Bell Canada is awarded the contract, it is directed to file with the Commission, within two business days of the date of the above notification, an electronic version of the application for the Commission website. Among other things, section 59 of the *Canadian Radio-television and Telecommunications Commission Rules of Practice and Procedure* incorporates by reference the procedural requirements established in Telecom Information Bulletin 2010-455, ² which allow interveners to file interventions within 25 calendar days of the filing of the Group B tariff application that has been placed on the public record.

Secretary General

Approval processes for tariff applications and intercarrier agreements, Telecom Information Bulletin CRTC 2010-455, 5 July 2010

An *ex parte* application is an application that has been filed with the Commission without notice to the public and, as such, is not placed on the public record when initially filed. An *ex parte* decision is one in which the Commission disposes of an application solely on the basis of the applicant's submissions. Subsection 61(3) of the *Telecommunications Act* allows the Commission to make an *ex parte* decision where it considers that the circumstances of the case justify it. In *Review of regulatory framework*, Telecom Decision CRTC 94-19, 16 September 1994, the Commission set out several considerations to be balanced in any determination to permit *ex parte* tariff filings, including the public interest in the effective operation of the competitive marketplace and the public interest in an open regulatory process.
