Preamble for items 1 to 9

On 29 June 2015, the Commission issued *Call for applications - Radio stations to serve Vancouver, British Columbia*, Broadcasting Notice of Consultation CRTC 2015-288 (Broadcasting Notice of Consultation 2015-288), calling for applications for broadcasting licences for radio stations to serve Vancouver, British Columbia. The Commission's preliminary view was that the Vancouver market would best be served by proposals targeting ethnic communities. However, it did not preclude any other types of applications being submitted. The Commission indicated that applications were to include all of the information requested in the appendices to that notice of consultation, failing which the application would not be considered as part of the process.

In response to this call, the Commission has received a number of applications for new ethnic radio stations to serve Vancouver and Surrey, as well as an application from a Vancouver ethnic radio licensee for a technical change involving the addition of a transmitter in Surrey.

Items 4 to 7 are technically mutually exclusive since the applicants propose to use frequency 89.1 MHz or 89.3 MHz.

Items 8 and 9 are technically mutually exclusive since the applicants propose to use frequency 106.9 MHz.

Several applicants proposed alternative frequencies and supported their proposals by providing technical suitability documentation. These proposals will be considered in this process and are identified in this notice. Consistent with the approach set out in Broadcasting Notice of Consultation 2015-288, the Commission will not consider any alternative frequencies other than those identified in this notice.

The applications for items 1 to 9 will be treated as competitive radio applications for the Vancouver radio market.

Preamble for items 10 to 12

The Commission intends to consider, subject to interventions, items 10 to 12 during the non-appearing phase of the hearing.

11. Durham Radio Inc.
 Haldimand County, Ontario
 Applications 2015-1355-7, 2015-1335-9 and 2015-1337-5

Application by **Durham Radio Inc. (DRI)** for authority to acquire the assets of the English-language commercial radio programming undertaking CKJN-FM Haldimand County, Ontario, from Vista Radio Ltd. (Vista), and for a new broadcasting licence to continue the operation of the undertaking.

Moreover, DRI, on behalf of Vista, is requesting licence and technical amendments for CKJN-FM, as indicated below.

DRI is owned by Douglas E. Kirk (82.6%), Mary L. Kirk (10.9%) and other shareholders (6.5%) and is controlled by Douglas E. Kirk.

Pursuant to the asset purchase and sale agreement, DRI will purchase the assets for \$400,000 with adjustments. DRI has requested to be exempted from paying tangible benefits and offers instead to make a contribution of \$50,000 to Canadian content development over five consecutive broadcast years (\$10,000 per broadcast year).

Following completion of the transaction, DRI will become the licensee of CKJN-FM.

In application 2015-1337-5, DRI, on behalf of Vista, is requesting to amend condition of licence 6 for CKJN-FM set out in appendix 2 to *Various radio programming undertakings – Acquisition of assets*, Broadcasting Decision CRTC 2012-577, 19 October 2012.

Specifically, it wishes that the current percentage of Canadian musical selections that must be broadcast each broadcast week be reduced from 60% to 35%, as follows:

6. The licensee shall, as an exception to the percentage of Canadian musical selections set out in sections 2.2(8) and 2.2(9) of the *Radio Regulations, 1986* (the Regulations), in any broadcast week:
 - (a) devote, in that broadcast week, 35% or more of its musical selections from content category 2 (Popular music) to Canadian selections broadcast in their entirety; and
 - (b) devote, between 6:00 a.m. and 6:00 p.m., in the period from Monday to Friday of the same broadcast week, 35% or more of its musical selections from content category 2 to Canadian selections broadcast in their entirety.

According to DRI, on behalf of Vista, this licence amendment would make CKJN-FM more competitive with other Canadian stations and with unregulated U.S. stations.

In application 2015-1335-9, DRI, on behalf of Vista, is requesting to change the authorized contours of CKJN-FM by increasing the average effective radiated power (ERP) from 2,500 to 3,750 watts (maximum ERP from 10,000 to 15,000 watts) and by decreasing the effective height of antenna above average terrain from 109.4 to 108.6 metres.

The population served under the proposed coverage contours would increase from 14,734 to 28,173 in the 3mV/m contour and from 474,686 to 497,457 in the 0.5 mV/m contour.

DRI, on behalf of Vista, states that this change would serve to enhance coverage of the Haldimand County to serve the population of Hagersville and Dunnville.

It also states that this application is severable from applications 2015-1355-7 and 2015-1337-5.
