Ottawa, 10 July 2017

File number: 8663-B2-201514050

Application of regulatory obligations directly to non-carriers offering and providing telecommunications services

Revised registration deadline: 17 July 2018

Change to registration date

1. In paragraph 37 of *Application of regulatory obligations directly to non-carriers offering and providing telecommunications services*, Telecom Regulatory Policy CRTC 2017-11, 17 January 2017, the Commission directed all non-carriers with existing service contracts or other arrangements with Canadian carriers or other non-carriers as of the date of that decision to register with it by 17 July 2017. As a result, the Commission has received a large number of inquiries and applications regarding registration. Given this, and to avoid any disruptions to existing telecommunications services, the Commission is postponing the registration deadline to **17 July 2018**.
2. The Commission intends to initiate a proceeding shortly, by way of notice of consultation, to examine, among other things, which types of non-carriers should be subject to registration.

Secretary General
