4. In accordance with the 2019 Policy Direction,³ the Commission considers that this order, which is based on a complete record, can promote competition, affordability, consumer interests, and innovation. Specifically, the final approval of this application complements and adds appropriate pricing to a previous application that promoted (i) consumer interests by providing customers with additional bandwidth speeds for a three month period, giving them greater flexibility in the circumstances of the current pandemic; and (ii) innovation by ensuring that, as a result of the greater bandwidth speeds available, consumers would have access to high-quality telecommunications services.
5. Revised tariff pages are to be issued within 10 calendar days of the date of this order. Revised tariff pages can be submitted to the Commission without a description page or a request for approval; a tariff application is not required.
