4. In accordance with the 2019 Policy Direction,³ the Commission considers that this order, which is based on a complete record, can promote competition, affordability, consumer interests, and innovation. Specifically, the final approval of these applications will promote (i) competition, because it will allow changes in the tariff related to the expansion of SSI into regions of Quebec served by Télébec, Société en commandite and Bell Canada; and (ii) consumer interests, because it will facilitate the entry of a competitor who will provide services to consumers.
5. Revised tariff pages are to be issued within 10 calendar days of the date of this order. Revised tariff pages can be submitted to the Commission without a description page or a request for approval; a tariff application is not required.
