

Telecom Order CRTC 2021-422

PDF version

Ottawa, 16 December 2021

Saskatchewan Telecommunications – Interim approval of tariff applications

1. The Commission **approves on an interim basis** the following tariff applications:

Applicant	Tariff Notice and description	Date of application	Effective date
Saskatchewan Telecommunications	TN 373 General Tariff – Introduction of Next Generation 9-1-1 Service	1 November 2021	1 January 2022
Saskatchewan Telecommunications	TN 373A General Tariff – Introduction of Next Generation 9-1-1 Service	19 November 2021	1 January 2022

2. In *Establishment of new deadlines for Canada’s transition to next-generation 9-1-1*, Telecom Decision 2021-199, 14 June 2021, the Commission directed next-generation 9-1-1 (NG9-1-1) network providers, by 1 March 2022, to (i) establish their NG9-1-1 networks; (ii) complete all NG9-1-1 production onboarding activities; and (iii) be ready to provide NG9-1-1 Voice, wherever public safety answering points have been established in a particular region.
3. Saskatchewan Telecommunications (SaskTel) requested an effective date of 1 January 2022 for the interim approval of the tariff proposed in its applications, in order to allow sufficient time to migrate traffic onto the NG9-1-1 network prior to 1 March 2022.
4. SaskTel indicated that the tariff proposed in its application provides for no charges for the period of 1 January 2022 to 28 February 2022.
5. The Commission recognizes the importance of ensuring that companies have sufficient time to transition to the NG9-1-1 network. Therefore, prior to its review of the whole record, the Commission finds it appropriate to approve SaskTel’s request for interim approval of its applications, effective 1 January 2022, with no charges to be applied until 1 March 2022.
6. The Commission will address the rates that are under consideration in the applications, and any related issues if necessary, in a subsequent order that will be based on the complete record.

7. The interim approval of these applications complies with the 2006 and 2019 Policy Directions¹ by facilitating efficient tariff processes while enabling the Commission to consider, on the basis of a complete record, how its final decisions can promote competition, affordability, consumer interests, and innovation.
8. Revised tariff pages are to be issued within 10 calendar days of the date of this order. Revised tariff pages can be submitted to the Commission without a description page or a request for approval; a tariff application is not required.
