

# Telecom Decision CRTC 2026-94

PDF version

Gatineau, 20 May 2026

## Revocation of basic international telecommunications services licences

### Summary

The Commission revokes the basic international telecommunications services licences of 50 companies that have failed to comply with the conditions of licence. The appendix to this decision identifies the companies that have had their licences revoked.

### Background

1. All entities that provide basic international telecommunications services (BITS) to Canadians are required, pursuant to subsection 16.1(1) of the *Telecommunications Act* (the Act) and Telecom Decision 2008-70, to be licensed by the Commission.
2. Licensees are required to provide basic information about their service and keep this information up to date pursuant to the following condition of licence:

The licensee shall keep current the information required by the Commission in the application form for the issuance or renewal of BITS licences, as amended from time to time by the Commission. The licensee shall file with the Commission particulars of any change to such information within 30 days of the licensee becoming aware of the change in question.

3. Licensees must also submit certain information annually pursuant to the following condition of licence:

The licensee shall file with the Commission any information required to be filed, in such form as may be prescribed by the Commission. For example, the licensee shall comply with the telecommunications industry data collection process requirements set out in Telecom Circular 2003-1 and Telecom Circular 2005-4, as amended from time to time by the Commission.

### Notice of intent

4. Despite repeated requests, several licensees failed to comply with these filing requirements. On 14 February 2025, the Commission notified licensees by both email and mail of the start of the annual telecommunications survey and its due date of 31 March 2025. In follow-up emails dated 19 and 20 May 2025, the Commission explicitly advised non-responsive entities that the overdue

forms were required as a condition of licence for BITS. Furthermore, the Commission attempted to contact these entities by telephone and email between August and September 2025 regarding this matter.

5. On 18 September 2025, pursuant to subsection 16.4(1) of the Act, the Commission issued a notice of intent to revoke the BITS licences of licensees that had failed to comply with one or both above-referenced conditions of licence. The notice was sent by registered mail to the contact addresses on file with the Commission, and the licensees were given until 1 October 2025 to either file the required information with the Commission or make representations, by the same date, as to why they should not be required to comply with the conditions of licence.

### **Commission's analysis**

6. Fifty companies have failed to file the required information or make representations. The Commission, pursuant to subsection 16.4(1) of the Act, therefore revokes the licences of the companies listed in the appendix to this decision.
7. The Commission notes that any person providing BITS in Canada without a licence from the Commission may be found guilty of an offence punishable on a summary conviction under subsection 73(1) of the Act, which states the following:

73(1) Every person who contravenes subsection 16(4) or 16.1(1) or (2) or section 17 is guilty of an offence punishable on summary conviction and liable

(a) in the case of an individual, to a fine not exceeding fifty thousand dollars for a first offence, or one hundred thousand dollars for a subsequent offence; or

(b) in the case of a corporation, to a fine not exceeding five hundred thousand dollars for a first offence, or one million dollars for a subsequent offence.

8. The Commission also notes that any person providing BITS in Canada without a licence may have an administrative monetary penalty imposed on them pursuant to section 72.001 of the Act.

### **Conclusion**

9. In light of the above, the Commission, pursuant to subsection 16.4(1) of the Act, revokes the BITS licences of the companies listed in the appendix to this decision. Revocation of the BITS licence will result in the removal of these entities from the following CRTC registration lists: Basic International Telecommunications Services, Resellers of Telecommunications Services, Resellers of High-Speed Retail Internet Services, Digital Subscriber Line Providers, and Non-dominant Carriers.

Secretary General
