

December 03, 2021

Mr. Claude Doucet  
Secretary General  
Canadian Radio-television and  
Telecommunications Commission  
Ottawa, Ontario K1A 0N2

Dear Mr. Doucet:

Re. Broadcasting Regulatory Policy CRTC 2019-392. Described video of prime time programming broadcast by the services of Bell Media Inc., Corus Entertainment Inc. and Rogers Sports & Media Inc. – Progress Report

Bell Media Inc. (Bell), Corus Entertainment Inc. (Corus) and Rogers Sports & Media Inc. (Rogers) (collectively, the Broadcasters) are pleased to submit our year-end report on the progress made by the licensees to address the issues involved in fulfilling the condition of licence that requires certain prime time programming to be broadcast with described video.

In BRP 2019-392, the Commission recognized the practical realities of the program delivery process and the difficulties faced by the Broadcasters in describing late-arriving programming. Some American prime time programs received by the Broadcasters without DV already in place are delivered only shortly before they are scheduled for broadcast. In those cases, the Broadcasters may not have sufficient time within which to produce a DV version of the program in time for its original air date. As a result, the Commission specifically approved an exception whereby US programs delivered within 24 hours of their broadcast date and time are not required to be described for that broadcast.

While the Broadcasters cannot yet report that all of the required programming in prime time is available in described video, we remain focused on maximizing the amount of described programming made available in the Canadian broadcasting system and have continued to make great strides. We do note that there will continue to be isolated instances where programming is received live or near-live, and in those cases we will not be able to provide DV before first broadcast. Unless and until automated AI options

progress to the point where the quality of DV on a prime time program can be assured, we do not see how we can circumvent these isolated instances without removing our ability to air premiere programming during prime time completely. However, as U.S. program providers are increasingly providing DV with their content, we expect these isolated instances to continue to decrease.

Otherwise, the Broadcasters are pleased to report that many of the issues that caused us to seek relief from the Condition of Licence (COL) in 2019 have since been resolved. As reported in December of 2020, following significant operational and technological investments and improvements, we are now able to report a very limited number of cases in which DV is not present in accordance with the COL. The Broadcasters are now able to report that collectively, only a few reoccurring live or near-live programs and/or sporadic and infrequent technical issues have caused programs to go to air without DV on their initial broadcast. This is good news. The Broadcasters would be pleased to submit specific details in the coming days.

### **The Purpose of the Described Video Working Group Meetings**

As previously reported, the Broadcasters initiated the formation of a Working Group to review and discuss issues of concern on a going forward basis with a mandate to:

*Address the issues requiring the temporary 24-hour exemption to providing described video for prime time programming, and to consider and explore solutions informed by described video best practices, innovations and new technologies.*

More specifically, BRP 2019-392 set out an expectation that Licensees will work in consultation with persons who are blind or partially sighted to “...*address the issue that requires the 24 hours exception granted by the Commission in this decision.*”<sup>1</sup>

We have helped organize and participated in consultations over the past year, and we have communicated one-on-one with members of the community as well. The fact is, that few to none of the issues raised by community stakeholders or feedback received via Direct Outreach related to the 24-hour exemption.

### **Community Consultation**

As was reported in our last Bi-annual report, the Broadcasters established dedicated corporate email addresses as a way for community members to communicate with the Broadcasters directly about any concerns or issues they may have with described video on our stations and services. Those email addresses were distributed to the members of the Working Group as well as to all participants in the Community Consultations:

- Bell Media: [DV@bellmedia.ca](mailto:DV@bellmedia.ca)
- Corus Entertainment: [DVatCorus@corusent.com](mailto:DVatCorus@corusent.com)
- Rogers Media: [describedvideo@rci.rogers.com](mailto:describedvideo@rci.rogers.com)

---

<sup>1</sup> Broadcasting Regulatory Policy CRTC 2019-392

Collectively, the Broadcasters have received only a handful of correspondence through these email addresses as well as through direct personal contact, and very few of those emails had to do with the quality of or the lack of DV on linear broadcasts. This is clearly a positive indication that the DV experience has been very good. In cases where specific issues have been identified as related to the traditional linear broadcast of our stations, the Broadcasters have been able to provide solutions.

## **Conclusion**

The Broadcasters have continued to make progress in decreasing the amount of time required to add described video to programming. Incidents of programming requiring DV in prime time, which do not include DV, is low, and the Commission-approved amendment in BRP 2019-392 has provided a helpful measure of flexibility in those rare instances.

Through establishing lines of communication with the Community we have ensured a seamless and direct process for their feedback, and this remains a cornerstone to providing a better viewing experience of our traditional linear services through the resolution of any unknown issues.

Going forward, the Broadcasters will continue to make dedicated email boxes as well as Direct Outreach available to the community. Additionally, the Broadcasters will be scheduling another Community Town Hall in the new year.

It would appear from our experience over the past broadcast year that having a forum in which to speak directly to the Broadcasters, not the turn around time of US programming is of more concern to the Community. It has become clear to us that such direct contact appears to be the best way for the Broadcasters to help work towards solving the individual issues and concerns we've heard about in the Community Meeting.

Sincerely,

**Alain Strati**

Assistant General Counsel, Regulatory Affairs

Bell Media Inc.

**Karen Gifford**

Sr. Director, Regulatory Compliance and Licencing  
Corus Entertainment Inc.

**Calla Dewdney**

Sr. Manager, Regulatory Media  
Rogers Sports & Media

December 09, 2021

Mr. Claude Doucet  
Secretary General  
Canadian Radio-television and  
Telecommunications Commission  
Ottawa, Ontario K1A 0N2

Dear Mr. Doucet:

Re. Broadcasting Regulatory Policy CRTC 2019-392. Described video of prime time programming broadcast by the services of Bell Media Inc., Corus Entertainment Inc. and Rogers Sports & Media Inc. – Progress Report

On December 3, 2021, Bell Media Inc. (Bell), Corus Entertainment Inc. (Corus) and Rogers Sports & Media Inc. (Rogers) (collectively, the Broadcasters) submitted a year-end report on the progress made by the licensees to address the issues involved in fulfilling the condition of licence that requires certain prime time programming to be broadcast with described video.<sup>1</sup>

In that letter, the Broadcasters indicated that collectively, only a few reoccurring live or near-live programs and/or sporadic and infrequent technical issues have caused programs to go to air without DV on their initial broadcast. And, that we would be submit specific details relating to our individual services in the coming days.

Accordingly, Corus is pleased to provide the Commission with a breakdown of those instances in which programming broadcast between 7 p.m. and 11 p.m. drawn from program categories 2 (b), 7, 9, 11(a), 11 (b) and/or programming targeting preschool children (0-5 years of age) and children (6-12 years of age) were broadcast on a Corus service without described video, and where applicable the repeat airdate in which such programs were broadcast with described video. The details of which can be found in Appendix A.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Gifford".

**Karen Gifford**  
Sr. Director, Regulatory Compliance and Licensing  
Corus Entertainment Inc.

---
