<p>Manitoba, BC, Yukon, Ontario & New Brunswick</p>	<p>Eagle Vision Inc.</p>	<p>TRUE STORY - True Story is a feature documentary that sheds light on the history of the relationship between Indigenous and settler people as told by Indigenous voices from their point of view. Relying on oral history, True Story investigates how Indigenous history has been hidden and rewritten. The film explores topics such as Turtle Island's (North America's) creation story and the settler theories that challenge it, the powerful role of women, Elders, Two-Spirit and Indigiqueer people in Indigenous society and the unique tools Indigenous people use to record their history. This historical journey is heartbreaking, astonishing and shameful, but it is also uplifting, inspiring and well balanced with laughter and light. As a nation living on what is now called Canada, how do we move forward together from the historical wrongdoings of our colonial history? If we truly want reconciliation, let's start with the truth. It might be messy, and it is definitely ugly, but moments of hope show us what this country could be — if we are open to facing and learning from the past.</p>	<p>2B.
