November 6, 2009

Mr. Robert A. Morin
Secretary General
Canadian Radio-television and
Telecommunications Commission
Ottawa, ON K1A 0N2

Dear Mr. Morin:

Subject: Call for comments – Nomadic VoIP E9-1-1 service, Telecom Notice of Consultation CRTC 2009-194 (“Notice 2009-194”) – Comments of TELUS Communications Company (“TELUS” or the “Company”)

1. TELUS has had the opportunity to review the comments of Bell Aliant Regional Communications, Limited Partnership, Bell Canada and Télébec, Société en commandite (the “Companies”) that are to be submitted in relation to the proceeding initiated by Notice 2009-194. TELUS supports the entirety of the comments of the Companies, except on the issues raised by the Commission on the payment of the costs for implementing the location determination platform for nomadic VoIP E9-1-1 services. This issue was raised by the Commission in Appendix 2 of Notice 2009-194.

2. TELUS previously provided its position on that issue in its Location Determination Platform Detailed Description, filed as an Attachment to the Company’s August 7, 2009 submission. TELUS’ position on the remainder of the issues in this proceeding, including the technical and economic viability of the Canadian i2 proposal, the lack of desirability and applicability of alternative nomadic VoIP E9-1-1 proposals and the requirement that no exemptions be made for any ASPs for the implementation of the LDP, are the same as those included in the comments of the Companies.

Yours truly,

{original signed by Ted Woodhead}

Ted Woodhead
Vice-President
Telecom Policy & Regulatory Affairs
